The Backstroke From the Bottom Up

Using a new approach to teaching the backstroke, *The Backstroke From the Bottom Up* takes the viewer from the basics of body position to unlocking the secrets in the stroke of a National Champion.

David Bottom, five time American Record Holder in the 100 yard backstroke, is the current head swim coach at Georgia State University. David uses his recent competitive experience and coaching ability in the production of *The Backstroke From the Bottom Up.*

PRESENTING

THE BREASTSTROKE, FROM THE BOTTOM UP

Another high-caliber, professional presentation from Bottom Line Aquatics.

Featuring three-time Olympian Susan Rapp as she takes the viewer through the ''new'' competitive style of wave-action breaststroke. This information, as well as her unique perspective on swimming, make this video another thumbs-up production from Bottom Line Aquatics.

Sendcopies of The Breaststroke @ \$40.00 ea copies of The Backstroke From the Bottom Up @ \$40.00 each.		s add 6½% sales tax. Total enclosed

INE CREST

June 9 to August 10, 1991

here are many swim camps in the United States to choose from this summer — but only Pine Crest Swim Camp offers all the benefits of a true swim training "camp."

Pine Crest combines twenty-three years of experienc running swim camps with their outstanding facilities (two 25 yard pools and one 50 meter pool) and the finest coaching staff anywhere, under the direction of Camp Director, Gary T. Butts.

Camp Program 1991

Designed for boys and girls ages 8-18.

- Swimmers live in fully supervised, air-conditioned dorms on Pine Crest's 47 acre campus.
- There will be 2-3 water workouts each day, long and short course.
- Color video of each swimmer.
- All meals served in Pine Crest's on-campus dining hall.
- One hour stroke class each day.
- Mental training class stresses personal, physical and emotional preparedness.

Complete program of supervised extracurricular activities including water sports, excursions to Disney World, movies and much more.

Major Change In Backstroke

Several rules changes were adopted at the International Amateur Swimming Federation (FINA) congresses Jan. 1-3 in Perth, West-

ern Australia. All of the new rules will become effective March 3, 1991. Listed below are a summary of the changes:

• The requirement that backstroke swimmers must touch the wall at the turns with a hand was eliminated. This should permit the swimmers to anticipate their turns as they do in freestyle events.

• The distance a swimmer may remain underwater at the start of the backstroke events was lengthened to 15 meters. In Seoul, FINA had instituted a 10 meter restriction after some finalists stayed underwater for more than 20 meters. However, the determining point will now be the head breaking the surface instead of the toes.

• The number of false starts a swimmer is permitted before being disqualified was reduced to one. The rule previously allowed two false starts.

• There will be world records recognized for competition in 25 meter (short course) pools. This will increase to 34 the number of events for which FINA recognizes world marks.

The FINA diving technical committee passed a rule stating that as of March this year no diver younger than 14 years of age (as of December 31 in the year of competition) will be eligible to compete at the World Championships, Olympic Games and World Cup meets. The intention of the rule is to protect divers' long-term health.

"The medical evidence we have," said Jack Sanders, committee secretary, "suggests diving from the 10-meter platform while a child's bone structure is still developing has no immediate

Fu Mingxia

effect but problems may occur later in life."

China voted against the rule and the United States for it. Its passage means

world platform champion Fu Mingxia, 12, will not be able to compete in the World Cup May 1-5 in Winnipeg, Canada. Fu, born in August, will be eligible for the Olympics next year, however, because the age limit is based on being 14 in the calendar year of the meet instead of the age at the time of the competition.

In another change, the diving committee created a tournament format for the 1-meter springboard event at future World Championships.

The two significant changes for water polo were recognizing a smaller ball for women than is currently used and reducing the time that a player may be ejected for a foul from 35 seconds to 20 seconds.

In synchronized swimming, the degrees of difficulty for figures competition were revised and the number of figures to be performed in FINA events was reduced from six to four.

N E W S W A V E

A "sprint day" was held on the eve (Jan. 6) of the swimming competition at the World Championships. It featured heats and finals for 50 meters in back-stroke, breaststroke and butterfly and 4 x 50 free relay for both men and women and was intended to gauge interest in these events for possible inclusion as medal competitions in future champion-ships.

The program received a couple of setbacks, though, when the United States chose not to compete and Australia withdrew from the finals after qualifying nine and a relay team in the prelims. The U.S. staff decided that either all the swimmers would compete or none and took a team vote where the majority preferred not to enter. Australian head coach Don Talbot made the decision for his team, angering the Perth organizing committee which then offered refunds to spectators because there was no advance notice about t the Australians.

Qian Hong of China won the 50 meter fly in 27.30, unofficially the fastest ever, to highlight the finals of the sprints. FINA recognizes no records in the sprint strokes. The events are swum primarily in Europe where the 50 fly mark is 27.54 by France's Catherine Plewinski. Mary T. Meagher covered the opening 50 in 27.75 on the way to her world record of 57.93 in the 100 fly. Following are the results of the sprint day finals: Women

C S C A A

Limited Changes

The NCAA convention in N a s h v i l l e adopted major legislation designed to cut costs, reduce

time demands on student-athletes and refine membership criteria for divisional membership.

The full effects of the legislative action for non-revenue sports like swimming and diving will probably not be known immediately, but our sport scored more "victories" than any other, and, clearly, the perspective of the swimming community was advanced by hundreds of letters to college presidents and key administrators.

How will collegiate swimming dif-

fer? There will be fewer coaches, as limitations were established for one head coach, one assistant coach and one "limited earnings" coach (usually, graduate assistants) for each men's or women's team.

There will be fewer scholarships, as new maximum grant-in-aid allowances are 9.9 scholarships for men's swimming and 12.6 scholarships for women's swimming.

These cost reduction measures were instituted for all sports, however, and some marginal collegiate programs conceivably may be saved because of overall athletic department budget reductions.

Mandatory practice time (that which a coach can require) is limited to 20 hours per week for the 24-week collegiate swimming season and eight hours of strength straining during the remainder of the school year.

However, voluntary practices are allowed throughout the year, and not only may the coach be present during these voluntary sessions, he/she may give "skill instruction" (although not technically able to "conduct" the workout).

Our most dedicated athletes will be able to pursue their goals with workout time that can be the same as previously done; the distinction is between "mandatory" and "voluntary" participation.

One of the few pieces of legislation passed at the convention that can be considered a true "victory" was the continued ability of swimmers with remaining eligibility to train with their college coaches during the summer

CSCAA

months. This was regarded as a toss-up issue going into the convention, and the efforts of strong leaders like Joan Cronan

of Tennessee and Donna Lopiano of Texas were instrumental in this area. The net effect for swimming is likely

to be negligible, and our sport came through more favorably than any other. Continued work by the swimming community will be necessary to help the "fine-tuning" process which will almost certainly see areas of inequity removed.

The CSCAA will support the actions taken at the 1991 convention to produce reform in intercollegiate athletics. We will continue to work with the NCAA Presidents Commission and the NCAA Council in providing input that is relevant to swimming. We will proceed with the documentation of the academic success of swimmers in college.

Most importantly, we will encourage every college swimming team in America to become actively involved with community and campus service projects (volunteer work) which will show that our student-athletes are extraordinary individuals and "good citizens" who can serve as role-models for youth everywhere.

The vote among Division I presidents regarding time demand legislation was 299-28. Given the overwhelming consensus for reform, it would be unwise to continue our active letter-writing and public awareness campaign.

The next battles will be won on the basis of performance in the classroom and in the community because if we are going to be successful in reversing some of the changes made at the 1991 convention, it will be because our sport has shown itself as a model for others to emulate.

It's a challenging prospect, but I have every confidence that our student-athletes and coaches will respond in an overwhelmingly positive way.

We can show college presidents that student-athletes in our sport are not only part of the "mainstream" of college life, but, instead, they are truly exemplary in fulfilling academic expectations at a high standard of excellence and in being individuals who care about the world around them. ∞

American Relay

ARIZONA

At the end of a very successful year for the Arizona Marlins (Phoenix), the team held its annual Awards Banquet in November. Outstanding swimmers were Cameron Ballinger and Louis Fidel, 8-and-under; Erin Ballinger and Joe Ketterling, 10-andunder; Lisa Fritsche and Jeff Personius, 11-12; Heidi Knowler and Kris Escher, 13-14; Becky Crowe and Matt McGhie, Senior. The coach's award went to Travis Larson.

FLORIDA

Congratulations go to the Plantation Swim Team, which celebrated its fifth anniversary Feb. 2. One of the original team members, Eric Christensen, has scored in the top eight at Junior Nationals and plans to compete at the senior level this year. Laura Doepp, Patty Sykes and Kelly Fleming are now swimming at college, but return to the team each summer to provide additional leadership. Newer team members Brooke LeBlanc and Vicki Wattles have made their marks on the national scene: LeBlanc is a senior national qualifier, and Wattles has competed in two junior national championships and is looking for senior national qualifying times. Not to be outdone, the 9-14 age groupers are helping PST toward its goal of becoming No. 1 on the Motivational Times list. Couple that with an outstanding group of coaches, led by June Woolger, and it's easy to see why Plantation has had a great five years of success and can look forward to many more.

GEORGIA

The 11th annual Woodie B. Malone Invitational was held at the Dynamo Swim Club's pool in Atlanta Dec. 7-9. SwimAtlanta won the meet, Dynamo was second and third went to the Cobb Stingrays. Bobby Brewer from Tara Tarpons had an outstanding meet, breaking five 15-16 Georgia state records: 50 free (20.78), 100 free (45.36), 100 back (49.37), 200 back (1:47.74) and the 200 IM (1:49.77). Brewer was the only swimmer to set state marks at the meet. **HAWAII**

Hawaii Swimming is "hot" and competition was fast and furious in the final days of 1990. The Aulea Invitational hosted teams from neighboring islands and Oahu as well as teams from Japan, Switzerland and Tahiti. Outstanding swimmers were Kathy-Lyn Allen (PAQ) and Kevin Flanagan (OCST).

The 1991 Hawaii high school season has begun and the 14th annual Kalani Invitational hosted the best high school athletes in the state. For the boys, Kevin Lo was a three-event winner (200 IM, 1:59.60; 100 fly, 53.68; 100 breast, 1:02.25) while John Flanagan won two freestyle events (200, 1:47.52; 500, 4:47.78). On the girls' side, Kathy-Lyn Allen took the 200 IM (2:11.21) and 100 fly (58.06), and Celeste Jacroux swept the distance free events (200, 1:55.82; 500, 5:21.32).

KANSAS

Two swimmers from the University of Kansas, Curtis Taylor and Barb Pranger, earned perfect 4.0 grade point averages during the fall 1990 semester. Taylor is a freshman business major, while Pranger is a junior majoring in exercise science/prephysical therapy.

MINNESOTA

Lynn Newton, a junior at the University of Minnesota, was selected the December Athlete of the Month by the Minnesota Sports Information Office. In December, Newton scored nine victories in six different events. At the Minnesota Invitational she won the 400 IM (4:31.61), the 1650 free (16:48.29) and was a member of the winning 800 free relay (7:39.76). Against Hawaii and Utah, Newton won the 500 free (4:59.82), the 1000 free (10:05.50) and was a member of

the winning 400 free relay (3:37.77). The 1000-1650 frees and 800 free relay were season-best times up to that point.

NEW JERSEY

The New Jersey Swimming Holiday Classic included nearly 1,100 swimmers and 45 teams representing 10 states from New Hampshire to North Carolina. The fourth annual classic, hosted by the Eastern Express Swim Team Dec. 14-16. held competition at Trenton State College and the brand-new Denunzio Pool at Princeton University. Forty-three senior national and 89 junior national qualifying times were achieved, and 57 new meet records out of 110 events were established. The top ten teams included: Peddie (670), New Jersey Wave (574), Bernal's Gators (313), Somerset Hills Y (291), Ridgewood Y (281), Philadelphia Dept. of Rec. (280), Upper Main Line Y (273), Berkeley Aquatic Club (260), Eastern Express (237) and Naval Academy Juniors (129).

The Voyagers Swim Team of Voorhees attended the 29th annual Allegheny Mountain Christmas Meet Dec. 14-16 at the University of Pittsburgh. Highlights of the team's performance included the 11-12 boys relays, which placed first in both the 200 medley and 200 free relays. The team members were Jon Maslow, Tim Bieg, Mark Beckler and Adam Ritchie. Jason Rosenbaum, 17, placed first in the 50 free (20.69, good for a senior national qualifying time and meet record), second in the 100 free (45.25, another senior time and meet record), fourth in the 100 fly (50.29) and sixth in the 200 free (1:41.92). The latter two times were junior national qualifying times.

NEW YORK

Jon Guljord was named the 13-14 boys Outstanding Swimmer after winning seven individual events to lead the Long Island Aquatic Club to the New York State Swimming Team Championship, held in Buffalo Dec. 14-16, 1990. They beat

second place Star Swimming of Buffalo 2,380-2,255. Finishing in third place was Gotham Aqua Kings of New York City with 1,855 points. Other state champions from Long Island were Jimmy Heitner, 13-14 boys 100-200 breast; Tom Zanetti, 13-14 boys 200 fly; Brian Valenza, 13-14 boys 100 fly; Grace Walsh, 15-18 girls 100-200 breast; Sandy Amisano, 11-12 girls 500 free.

NORTH CAROLINA

James Roberts has collected \$1,968 for the Lumberton Lightning Bolts' Swim-a-thon and leads all individuals in North Carolina. He's also sixth in the nation, as of Dec. 15. Greensboro Swimming Association (No. 8 in the nation) has earned \$14,445.50 and is the top North Carolina club. Additionally, Charlotte Swim Association is 10th in the U.S. among YMCAs with total revenues of \$2,650. North Carolina is fourth among LSCs with \$2.25 per athlete.

TEXAS

The ATEX Swim Team of Beaumont raised over \$9,000 with 28 swimmers participating in their 1990 Swim-a-thon. Twenty-six of the 28 swimmers received NORTH CAROLINA: Craig Hertz, John Rendall, Brian Spaulding and Chris Rendall (l-r) of the Greensboro Swimming Association broke NAG 11-12 boys relay marks in the 200 medley (1:51.24) and 200 free (1:37.98) at the NCS Fall States Championships.

T-shirts for raising \$100 or more for their team. The top three fundraisers for ATEX were Thurston Mansfield (\$2,062, first place), Andrea Heap (\$1,350, second place) and Amanda Smith (\$700, third place). Rebecca Stelly, Deborah Stelly and Lauren Williams also received awards for raising \$500 or more. Heap is only eight years old, and in her first year with ATEX.

The City of Plano Swimmers has welcomed Robin Dyer as assistant coach for the National, Senior and Senior Development workout groups. Dyer has 16 years of experience with USS, high school, college and masters programs, most notably with the Union Aquatic Club (N.Y.), where he led the team to the 1980 state championship.

VIRGINIA

Scott Griffith, a senior at Waynesboro High School, was elected team captain for SMAC (Waynesboro). He has swum with SMAC for 11 years, was tri-captain last year and finaled at summer YMCA Nationals. Griffith has qualified for more individual races at Y Nationals than any male SMAC swimmer ever. ∞

First Place with an Analox Champion!

The new **Analox CHAMPION Lactate Analyser** is now available in the U.S.A. The ultimate in compact portability and simple operation, the **Champion** uses just 2 buttons for YES or NO to control all its functions. Battery (or line) powered, results are printed-out only 20 seconds after injecting a sample.

For further information or demonstration please contact:-

Age Group Swimmers Of The Month

Candidates for "Age Group Swimmers of the Month" must compete within a nationally recognized age group.

Please send a short, typewritten (double-spaced) personality sketch and a black-and-white photograph (preferably a face shot) of each nominee or request a Swimmer Profile form from Swimming World.

JON FALCONER Rockford Marlins Swim Club Rockford, Illinois

Jon Falconer, even at the young age of 10, is focused and in tune with his goals and what it will take to reach them. His coach at the Rockford Marlins, Kevin Quitmeyer, says, "It is rare to find a swimmer his age so focused."

At the Illinois Long Course Junior Olympics last summer, Jon sped to fourth-place finishes in both the 50 and 100 meter breaststrokes with times of 44.27 and 1:37.30. A few weeks later, he moved a step up and competed in the Central Zone Championships at Grand Forks, N.D., and earned a 16th-place finish in the 50 breast (44.46) plus a 13th-place showing in the 100 breast (1:38.87). After those two strong showings, Jon continued to excel during the short course season. He's turned in recent time drops in the breaststroke, which has coincided with increased concentration on his technique.

Although most of his noteworthy performances have come in his specialty, the breaststroke, Jon has also accomplished at least as much, if not more, in developing his other strokes.

"He is a proficient all-around swimmer," comments Coach Quitmeyer, "and I look for versatility to be one of his strengths in the future."

Last December, the Brookview Elementary School 5th-grader competed at the Great Lakes Championships in Evanston, Ill. He won the 100 yard breast, tying the meet record with a 1:21.84. He also placed second in both the 50 breast with a 4-A time of 36.59 and the 100 IM with a 3-A time of 1:13.74. Jon demonstrated his versatility with a fourthplace finish in the 50 free (29.35, AAA), fourth in the 100 free (1:05.00, AA) and sixth in the 50 fly (32.40, AAA).

"Jon's recent success has resulted in his approaching his training with redoubled vigor and intensity," claims Coach Quitmeyer. Yet Jon still finds time for other activities, too.

"Other than swimming, I have played soccer, tennis, golf, basketball and enjoy skiing," says Jon. " I have won trophies playing soccer, tennis, golf and with my pinewood derby car."

As for short- and long-range goals, Jon keeps a good balance between swimming and scholastics: "I'm earning good-enough grades to be on the honor roll, and I'm trying to keep it that way. When I grow up, I want to be a radiologist.

"My swimming goals include going to nationals and getting a scholarship to a nice college.

"I'd also like to go to JOs in two or three more events and keep on going to Zones (Central Zone Championships)

and Quads (Mid-States Quadrangular)."

LIESELLE TRINIDAD West Side YMCA Marlins East Harlem, New York

Last season, the fastest time for 11-12 girls in the 50 yard butterfly was 26.78; the second fastest time was Lieselle Trinidad's 26.98.

This season, on December 14, at the USS New York State Team Championships in Buffalo, Lieselle, two months short of turning 13, swam a 26.62. At that meet, she received the runner-up high-point award for 11-12 girls.

An 8th-grader at The Center School, a New York City public school for talented children, Lieselle has been swimming for six years. On December 8, she took the intensely competitive admissions test that determines entrance to the handful of prestigious New York City public high schools.

For two-and-a-half months, she spent 14 hours a week preparing for this test—

Age Group Swimmers SAL JA

preparations that cut her training time for the Buffalo meet in half.

Lieselle swims for the West Side YMCA Marlins, a 70-swimmer team formed five years ago by her father and coach, Juan Trinidad.

Pool time is sparse in Manhattan, so five days a week Lieselle commutes across town from her apartment on the West Side to swimming practice at a facility rented by the Marlins in East Harlem.

Bilingual since birth (both her parents are from the Dominican Republic), Lieselle used her Spanish in July 1989 when she competed in the XVI Biannual Central American and Caribbean Games. an international FINA meet that attracted teams from 31 countries to Caracas. Venezuela.

Lieselle set a Games record in the 50

meter butterfly with a time of 31.32 and tied for the high-point trophy with a Venezuelan swimmer, Anamar Rada. She improved upon her 50 fly time later that summer with a 30.45 to rank her fifth in United States Swimming's National Age Group Top 16 long course 11-12 list.

Lieselle has represented the Metropolitan LSC in the Eastern Zone Championships five times, two long course and three short course. Next month, she will compete in her first national meet, the YMCA nationals in Orlando.

Before swimming, Lieselle's first sport love was gymnastics, where she competed for two years, inspired by Nadia Comaneci. She has seen the movie, *Nadia*, five times! Now, however, her attention has turned to Janet Evans!

A fourth-year student of piano, Lieselle has an interest in the arts, particularly drawing.

Her desire to be an architect fuels her effort to gain admission to the highly selective Brooklyn Technical High School, notwithstanding the one-hour subway commute from Manhattan to Brooklyn. -By David W. Welles

NICHOLAS MARKEY **Cobb Stingravs** Marietta, Georgia

Nicholas Markey has been swimming with the Cobb Stingrays in Marietta, Ga., since he was 8 when the team was just a newborn. In that first year, he aged-up shortly before the state championships, but was surprised to see that his best times as an 8-year-old would have won almost all of the 8-and-under events.

So he doubled his efforts and swam to several national Top 16 10-and-under cuts and anchored a Top 10 qualifying 200 freestyle relay.

Nicholas found the going tough as an 11-year-old in a very competitive Geor-

Nicholas Markey

gia age group, but he has found at age 12 that perseverance pays off.

Last summer, Nicholas earned a 15thplace ranking on the National Age Group Top 16 long course list among the 11-12 boys in the 50 meter back with a time of 32.64.

This past December at the Woodie B. Malone Invitational held in Chambley, Ga., at the Dynamo Pool, he won all seven of the 11-12 boys events he entered. His times in the 50 yard free (24.22), 100 free (52.98), 200 free (1:55.69), 100 back (1:02.89) and 200 IM (2:13.16) are all national Top 16 times, and he again anchored relays that qualified for national Top 10 consideration.

His coach, Pat Murphy, attributes his success to two main ingredients-great, natural technique and a joy in racing.

"He's not really out to beat his opponents," says Coach Murphy. "In fact, there are times that he seems apologetic.

"But it's truly exciting for him and for the people in the stands when he and another swimmer are coming home on the back stretch, and they're breathing toward each other, eyeball-to-eyeball. That's when he excels.

"Even so, he gets embarrassed by all the hoopla-he'd like to do the race and let the other guy get the trophy!" ∞

ARE YOU CRAZY?

If you still think you can get a better racing lane at a better price from anyone other than AntiWave, then we think you are a little crazy! VIP-AntiWave is the prime manufacturer of ANTI-WAVE products. We mold fabricate and assemble all our products ourselves. So our quality is exceptional, and our prices are unbeatable. Let us send a Price Comparison Chart! AND... don't forget our UNIQUE THREE YEAR WARRANTY PROGRAM.

STORAGE REELS - The "Supreme" Storage Reel is anodized to a lustrous blue finish for optimum resistance to chemical, solar or environmental corrosion. RACING LANES - Our patented interlocking discs are molded in tough polyethylene with ultra-violet inhibitors and antioxidants for color stability and maximum durability. The cable is 1/8" stainless steel crosswoven aircraft cable with 2000 lb. test strength.

INSIDE U.S. SWIMMING

Wouldn't it be great if an Olympic gold medalist came to your pool and told your team that there is no substitute for hard work and dedication—and they listened? Wouldn't it be great if a world record holder paid a visit and helped your youngsters with their stroke technique? That would be great, wouldn't it?

The Phillips Petroleum Company and United States Swimming thought so, too, and in 1985 developed the Gold Medal Clinics, a huge success having reached thousands of young swimmers across the country. The program has become a great motivational and developmental tool in the sport.

Each clinic, a one-day, six-hour workshop, is conducted by three worldclass swimmers and includes a variety of topics such as stroke technique, nutrition, safety, peer pressure, start and turn techniques and games. The clinicians, USS national team members as well as national and Olympic champions, are usually faced with 60 to 100 awestruck kids each clinic.

"The clinicians were inspiring, warm

Phillips 66/USS Gold Medal Clinics

USS will provide:

• A team of three members of the USS national team, former Olympians and national champions;

- Clinician transport to the host city:
- Clinician lodging, board and honorarium
- Handout materials for all participants.

USS Club/LSC will provide:

- \$1500 to USS National Headquarters
- 30 days prior to clinic;
- Local transportation;
- · Pool with seating for spectators;
- Two deck microphones;
- Conference table, with chairs facing
- audience, equipped with microphones;
- Television and VCR.

Contact U.S. Swimming's Promotions Department at 719-578-4578 to receive more information on the Phillips 66/USS Gold Medal Clinics. and open," said clinic host Lyn Walker, Missouri Valley conference director. "I am confident that there was not a Missouri Valley swimmer there who did not feel personally touched by the interest that the clinicians had in them.

"Not all experts are able to communicate what they know," she added. "Each of our three clinicians did a marvelous job in teaching both the technique as well as the joy of swimming."

Another host impressed with the clinic is Varley Taylor, the president of SwimTulsa, secretary of the Oklahoma Local Swim Committee and host of GMCs for three years.

"Three years says it all," said Taylor. "It's been very successful in terms of retaining interest. The athletes we've had have been great. They are super with the kids."

Taylor also said that along with retaining interest, the clinics are great for recruitment and just getting the entire team excited about swimming.

"I think it's great that the Phillips Petroleum Company and U.S. Swimming make Gold Medal Clinics available," he added. "It is a unique opportunity for kids here. Not many have the opportunity to come in contact with Olympic swimmers."

Randy Walker, director of Sweet Water Aquatics Team, has hosted two GMCs. "The Olympic athletes really motivate the kids," he said. "It shows the kids that their goals are really possible. It gives them a plan saying, 'This is how hard it is,' with a positive influence."

Gold Medal Clinics have a positive impact on everyone involved. The kids get to meet their swimming heroes and learn more about good competitive swimming. And the clinicians are enriched by the fulfillment they gain through the experience.

"It's the number one opportunity to give something back to the sport," said Wade King, USS national team member. "It puts swimming back into perspective. Sometimes you lose sight of what you're doing while training.

"It's a breath of fresh air to see these bright-eyed and bushy-tailed kids," he added. "We get great reaction from them. They're excited and eager and the feedback has been extremely positive. I have a totally new outlook when I finish a clinic."

Some hosts plan clinics around a scheduled team award ceremony or some other event in need of a guest speaker.

One clinician who has attended many such events is Craig Beardsley, former world record holder in the 200 meter butterfly, who has been involved in GMCs for several years. "We do it from the heart," he said. "We do it because we love the sport. It's important in my life. Every time I give a clinic, I learn something new.

"Gold Medal Clinics have kept me involved with the sport," he added. "When you have spent five hours a day training, you can't just quit. It's a nice change from the real world and the job and to do something different . . . something you love."

Phillips Petroleum Foundation President R.W. Peters, Jr., said, "The Gold Medal Clinics have enabled thousands of swimmers, coaches and parents to observe and learn from the great U.S. Swimming stars.

"This unique and personal experience is challenging and inspirational to our young athletes. Phillips is proud to support U.S. Swimming in continuing the tradition of excellence with the Gold Medal Clinics."

U.S. SWIMMING TESTS NEGATIVE

A recent USOC report shows that swimming did not have one positive result in drug testing in 1990. These tests include the U.S. Olympic Festival and the Goodwill Games. In all, 411 swimmers were tested negative for drugs. "We are proud of our swimmers," said USS Executive Director Ray Essick. "This report demonstrates that our efforts

to keep U.S. Swimming drug-free is working. This information gives us the impetus to continue our programs of testing and education to insure that no athlete is given an unfair advantage in competition."

Partial credit in this area is due to the USS National Team Honor Code, signed by all U.S. national team members.

HUGHEY INVOLVED IN PERSIAN GULF CRISIS

Rich Hughey, a former U.S. Swimming national team member, is in Saudi Arabia as part of the United Nations multinational coalition. He swam at the 1983 Pan Am Games, 1983 Sports Festival and 1984 Olympic Trials.

Hughey flies an F-14 for the Navy and is stationed aboard the USS America. All fighter pilots have a code name; Hughey's is "Speedo."

Rich would appreciate hearing from the States, especially from the U.S. Swimming family. To reach him, write: Lt. Richard Hughey, USN, VF33-Starfighters, FPO New York, NY 09504-6107.

If you know of any other former USS national team members involved in this crisis, please contact United States Swimming headquarters.

BARZDUKAS RESIGNS FROM USS ICAR

Sports Science Coordinator Audrius Barzdukas left the International Center for Aquatic Research (ICAR) Feb. 28.

"It's been tremendously rewarding to work with a group of people as dedicated and motivated as the USS and ICAR staffs," he said. "It's an experience I will always treasure."

Barzdukas was responsible for coordinating, administering and interpreting data for all Select Camp, club and national team testing conducted at ICAR. He specialized in psychological research at the flume, presenting data at many international scientific congresses.

Barzdukas, who is moving to New York City and getting married in May, will be serving USS as a volunteer beginning with this year's USAS Convention.

"Audrius contributed much to the success of ICAR, both as a scientist and as a friend, and he will be missed," said Dr. John Troup, USS Sports Medicine Director.

SPITZ IN THE NEWS

Olympic legend Mark Spitz, who is on the comeback trail, can be seen in an ad along with pole vaulter Bob Seagren and marathon runner Frank Shorter for a hair care product.

They got together for a nationwide promotion for Clairol Option, a men's hair color. The promotion is a contest to find out who can guess which of the 40year-old Olympians is covering his gray hair. The winner will earn a trip to Barcelona for the 1992 Games. ∞

CHAMPIONSHIPS

By Russ Ewald

PERTH. Australia—Because of the windy conditions of this city of 1.1 million isolated on the West Coast, it's Fremantle port served as an ideal host for the America's Cup four years ago.

On the other hand, the "Fremantle Doctor"—as the cool breeze is called—caused much concern of coaches and competitors alike prior to the 6th World Swimming Championships Jan. 3-13 at Perth's modern Superdrome outdoor pool.

"As cool as it's been and with the wind, it will affect the performances," predicted U.S. national team director Dennis Pursley. "Personally, I think all championships should be held indoors for optimum conditions because of the tremendous investment of time of the athletes and money of the governing bodies. Otherwise, the city and facility are near the top of the list in every respect compared to previous championships."

Matt Biondi, the USA's 7-time Olympic medalist in 1988, took the philosophical approach of "It's the same for everybody," adding, though, "The smoother the surface of the water, the better off you'll be (in your performances)."

In workouts, the backstrokers were having difficulty accurately judging their turns because wind gusts blew the backstroke flags as much as a half a meter out of normal alignment.

Hotter weather during the meet with temperatures ranging from the high 70s to high 90s in the daytime cut down the wind. And the condition of five male swimmers proved to be more significant than the weather conditions. They set a total of six world records, making this the fastest men's competition at the championships since the inaugural in Belgrade where eight marks fell in 1973:

• Hungary's Tamas Darnyi earned the Politika Prize as the meet's outstanding

swimmer with records in both individual medleys, becoming the first to break two minutes for 200 meters (1:59.36) and smashing his 400 standard by 2.39 seconds (4:12.36).

• Germany's Jorg Hoffman, formerly of the GDR, shattered the oldest men's record in the books when he bettered the eight-year-old 1500 mark of legendary Soviet swimmer Vladimir Salnikov by more than three seconds with a time of 14:50.36. Seventeen-year-old Australian Kieren Perkins also bested the old mark in pushing Hoffman to the record.

• Mike Barrowman lowered the 200 breaststroke record for a fourth time down to 2:11.23 to beat the fastest field ever in that event.

• Melvin Stewart and Hungary's unheralded Norbert Rozsa not only conquered Olympic gold medalists Michael Gross of West Germany and Great Britain's Adrian Moorhouse in the 200 fly and 100 breast, respectively, but topped their world marks with times of 1:55.69 and 1:01.45.

There were no women's records. Some ex-East German swimmers and sports physicians have recently admitted the use of steroids in that country's national program, casting doubt on the legitimacy of 10 global marks set by GDR competitors. It should be noted, therefore, that the U.S. women's relay victories in the 400 freestyle (3:43.26) and 400 medley (4:06.51) would be records if the current German investigation voids the GDR marks, the only such cases at the meet.

The United States, capitalizing on the collapse of the East German program, once again became the leading team in the

> Goggleless Rozsa of Hungary emerged from anonymity the opening day by equalling the 100 breast record in a heat and bettering it on the opening night.

world based on the medal count. The Americans finished with 13 gold, seven silver and three bronze—the first time they've led in gold and total medals since 1978 at any non-boycotted world meet. Newly-unified Germany was next in overall medals with 20—four gold, nine silver and seven bronze. The East German women contributed to just one gold, the 800 free relay, and only because the U.S. team was disqualified.

Because of its depth, the U.S. team has always finished on top in the points standings where the scoring goes 16 deep. Overall, it had 800 to runner-up Germany's 713. The American women, though, scored their first victory at the championships in 13 years, coming from behind the final day to edge the Germans, 390 to 374, after an opening-day 800 free relay disqualification cost them 36 points.

For Pursley, the U.S. team met a bigger objective than winning the medal and scoring races. Eight swimmers got gold in the individual events compared to just Biondi and Janet Evans at the Olympics.

"It's an important step we needed to take, so our team didn't feel it was just two superstars that can win," said Pursley. "That, I feel, was my biggest accomplishment."

Besides the world records and two women's relays, Nicole Haislett in her 100 free win and Eric Namesnik's runner-up time in the 400 IM established American records. Leigh Ann Fetter equalled her U.S. mark in the 50.

The American team, however, was not without its disappointments. U.S. swimmers failed to medal in six men's and three women's events. There were only seven personal-best times and two others equalled.

"The biggest obstacle we had to overcome was the timing of the meet," said Pursley, referring to the championships being held during the winter for the first time (although it was summer in Australia). "I think it hurt more than we hoped.

"What we learned in this meet is that when the team is picked for the Olympics, the swimmers need to get into serious training immediately."

Pursley realized his team's success benefited from the collapse of the East German program, stating, "Everyone is now on an equal playing field."

China has been the latest target of allegations of drug use. On the eve of the championships, Canadian Coach Dave Johnson declared, "Whether or not the standard was attained by hard work or drug-induced, we've got to find Haislett became the first U.S. woman to win the 100 at these championships.

out. We've got to be more aggressive. For 15 years, we all knew something had to be going on for the East Germans to be swimming the times they did, but nothing was done."

The Chinese team held a news conference the final day of the meet during which Liu Ji, head of the delegation, and head swimming coach Chen Yaunpeng denied the accusations. Chen conceded that China learned from the advanced East German program through a coaching exchange with that country in 1986. East Germany's Rudolph Klaus came to China, which sent a volleyball coach in return. Chen added, though, that it's unfair to think "if anyone received help from the GDR (East Germany) and made progress, that means they took drugs."

The Chinese women won six medals, including four gold to tie the U.S. team for the most in the women's competition. However, almost all of their times were slower than last September at the Asian Games.

Australia and Hungary tied for third in the medal count. Hungary was second in gold medals with five.

"The Hungarians, along with the Chinese, have the type of social control by the government to make their performances possible," said Pursley.

A total of 1,241 athletes from 60 countries participated in the five sports at the championships, FINA (the International Amateur Swimming Federation) reported. There were 897 journalists, photographers and TV and radio announcers. Attendance was estimated at 80,000 with the last four nights of the swimming and the synchronized swimming team final sold out. Swimming interest was bolstered by the strong performance of the host country's Hayley Lewis and surprising success of teammate Linley Frame, along with the anticipation of sub-15 minute swimmers Perkins and Glen Housman in the 1500. Seating capacity for the 10-lane, two-meter deep pool was 6,000.

At the FINA meeting held in conjunction with the championships, Rome won the bid for the 1996 championships over Athens and Bonn.

First Day

January 7, 1991

W 100 Free M 100 Breast W 400 IM M 200 Free W 800 FR

Nicole Haislett experienced the thrill of victory and the agony of defeat in one evening.

In the opening medal event of the championships, the 18year-old American overtook France's Catherine Plewinski in the final stages to the 100 meter freestyle in an Americanrecord 55.17. The old U.S. mark was 55.30 set by Dara Torres on a relay leadoff at the 1988 U.S. indoor nationals. Plewinski, who held on for second in 55.31, went out in a blistering 26.22 the opening lap, 27-hundredths of a second under the split of Kristin Otto when the East German established the world record of 54.79. China's Zhuang Yong, top-ranked in 1990 at 55.12, turned second but never threatened and finished third in 55.65.

After Plewinski split (26.41) a full second faster than Haislett in qualifying first in 55.61 out of the heats, Haislett's strategy in the final was not to let her get so far ahead. "I think I won the race just before the turn," said Haislett, a Florida freshman. "She was so far ahead I knew I had to do something. I sped up and had a good turn. I started kicking 100 percent. It was a suprise to me. I didn't think I could go that fast."

The young American's victory was the first-ever in the 100 by a non-East German at the championships and ended that region's unbeaten streak in Olympic, World or European meets in the event at 15. She had also beaten the East Germans at last summer's Goodwill meet.

Haislett appeared to have capped a superb night when she helped the 800 relay team finish first in the final event. Leadoff Whitney Hedgepeth (2:00.37) put the Americans ahead and Haislett maintained it (2:00.67). After Trina Radke (2:01.25) was passed by Germany's Dagmar Hase (2:00.36), U.S. anchor Janet Evans made up the body-length margin and touched almost a second ahead in 8:01.63. A couple of minutes later, though, it was announced the U.S. team was disqualified because Haislett left 7-hundredths of a second too soon. The Germans moved up to first with their 8:02.56.

"The whole time I was swimming I thought I had broken," admitted Haislett, who, coming from a small club in St. Petersburg, Fla., has little relay experience. "Obviously, I did.

"Usually, my relay exchanges are terrible. It's something I've been afraid of. I was real pumped-up after my 100 win."

Norbert Rozsa of Hungary got the championships off to a roaring start in a 100 breast heat when he equalled the world record. An astonished Adrian Moorhouse of Great Britain, the record holder who chased Rozsa from the next lane and finished in 1:01.88, pointed out to his rival after the race that this was the third time his mark had been tied in the last year.

races the top seed was beaten. Gjertsen found out the strong European contingent meant business in the final. Sweden's Anders Holmertz darted out under the world record splits in 25.11 and 52.28 with record holder Giorgio Lamberti on his shoulder. Holmertz paid for that pace, allowing Lamberti to pass him on the third lap. No one challenged the fleet Italian, although Lamberti's winning

WARM WIND performance active wear! For more information, call (800) 288-WARM (9276) Dealer inquiries invited The Europeans swept the 200 with, from left, Poland's Wojdat third, Lamberti from Italy first and Zesner of Germany second.

time of 1:47.26 was 58-hundredths off his standard.

Lamberti, 21, didn't feel he was fit enough for a world record. His training was hampered by an injured back when he helped a friend push a car. He only felt good a week before the championships after receiving treatment from his friend and physiotherapist Massiliamo Platania, who practices Chinese manipulation.

"This is the biggest swimming event in the world so to me it feels better than the world record," said Lamberti. "It is the best thing in my career."

Gjertsen got caught off guard by the sizzling start and became discouraged when he couldn't close the margin, ending up last in 1:50.54.

"If it wasn't obvious, I made a big mental mistake," he said. "I wasn't expecting them to take off. I tried to change my stroke and rushed everything. I learned my lesson—go as easy as possible to make it in (to the final)."

After the disastrous first day for the U.S. squad, Pursley commented, "It's going to test the character of the team."

Moorhouse did it himself twice after setting the record at the 1989 Europeans.

Rozsa, 18, swimming in his first major international meet, said he was surprised but not shocked because he swam a 1:01.94 untapered in Budapest the previous month. Since that time was not listed in the world rankings, the performance stunned everyone outside of Hungary. The breaststroker's listed best was only 1:02.93 from July. In 1989, he ranked just 109th at 1:05.28.

In the final, the Soviet Union's Dimitriy Volkov charged out to the lead and turned in front in 28.70. Rozsa followed at 28.87, 13-hundredths slower than in the morning. Moorhouse staged his patented late rally, and the trio looked even with 10 meters to go. The newcomer then burst away from the veterans to win in 1:01.45 to gain sole possession of the world mark. Asked about the slow winning time, Lin responded, "I was not in top form because there was too little time to prepare after the Asian Games."

On drug-taking allegations leveled at her team, she answered, "It doesn't matter what they say. I don't feel anything about it."

Lewis, 16, a five-time gold medalist at the Commonwealth Games a year ago, said, "It was a bad touch by me. I knew I hadn't won."

Sanders wasn't sure if nerves got to her. "Going out in the fly wasn't as smooth." Then, on freestyle, she said, "I've never hit a wall so hard as today."

Evans has now been beaten three straight in the 400 IM. "I felt good until (the breaststroke)," she said. "My freestyle hurt really bad."

"I would have been disappointed to have won the gold medal in the time I swam tonight." —Adrian Moorhouse

Moorhouse took second (1:01.58) with Italy's Gianni Minervini, the former UCLA swimmer, passing Volkov for third (1:01.74).

"I paced myself and on the way back I gave it all I had," said Rozsa. "I didn't know I had it until it was over."

Moorhouse, 26, again missed the only major title he hadn't won. The 1988 Olympic gold medalist and three-time European champion finished first at Madrid in 1986 but was disqualified for an illegal kick off the wall.

"I would have been disappointed to have won the gold medal in the time I swam tonight," said Moorhouse, whose preparation was slowed by a virus in November. "At the end, I didn't have it."

The women's 400 individual medley featured a rematch between Evans and Summer Sanders, who upset the Olympic gold medalist at the Goodwill Games. However, China's Lin Li, a third 4:39 IMer last year, and Commonwealth star Hayley Lewis of Australia stole the show.

Sanders looked impressive during the heats, qualifying in 4:43.80 for nearly a two-second gap over the field. In the final, Sanders took the lead from Lewis on backstroke and held it through breaststroke, a meter ahead of Lin. Halfway through the final lap, the Chinese swimmer powered past the struggling American. With the loud home crowd urging her on, Lewis made a late charge to touch almost simultaneously with Lin. The scoreboard showed Lin the victor by a hundredth in 4:41.45. Sanders wound up third in 4:43.41. Evans, who moved into contention on backstroke, faltered on breast and finished fourth in 4:46.05.

"I felt I was swimming slow in the first 200 meters so I knew I had to pick up the pace in the last half," said Lin, 20, who was the leading medalist last September in the Asian Games. "I could see Summer Sanders ahead of me, but I felt I could catch her." Probably no one felt worse about the American pair's performance than Richard Quick, head of the U.S. women's team and coach of Sanders and Evans at Stanford. Quick analyzed: "I think maybe Summer is a bit young at this level. She came into this meet carrying the pressure of being the favorite. Janet's obviously struggling with her breaststroke. She has been for awhile. She is a little taller and bigger and her technique needs to improve. It takes long to get it down."

Doug Gjertsen was a surprise top qualifier in the 200 free at 1:48.58, over a half-second ahead of the field. But lane four was not the place to be on the opening day. In four out of five

While China's Lin (left) beat Sanders in both IMs, the American later swam the fastest 200 butterfly since 1987.

Second Day

January 8, 1991

M 100 Fly W 200 Free M 400 IM W 200 Breast M 800 FR

t didn't get any better for the Americans the second day. The U.S. team didn't get any gold despite sending out its Olympic stars, Biondi and Evans.

Biondi was looking forward to another 100 fly clash with Surinam's Anthony Nesty, who beat him by a hundredth of a second at the Olympics and more decisively last summer at the Goodwill. The 6-foot-7 American turned second in the final behind Germany's Michael Gross (24.74) but never mounted a challenge going home. Nesty caught Gross with five meters to go and nipped him at the wall, 53.29 to 53.31. Biondi was sixth in 53.97, the first time ever he swam an international event without getting a medal.

"I gave it my best shot," said Biondi. "I know I'm not going to beat anybody from behind. I had a good 85 meters. Unfortunately, there was 15 to go."

That last stretch is where Nesty is strongest. "I saw Michael out of the corner of my eye, so I kicked in and tried to stretch out my stroke," he said.

For Gross, it was his second-fastest 100 fly ever and his best since winning at the 1984 Olympics in 53.08.

Evans looked to have a good opportunity to win in a wideopen 200 free contest, although she was swimming the event for the first time in international competition. She and teammate Haislett qualified 1-2. After Romania's Luminita Dobrescu set the pace the opening half, Australia's Lewis from lane eight

and Evans battled neck-and-neck the rest of the way. Just as the previous evening, the host country darling in contention brought the crowd into a frenzy. Having too much speed for the distance-oriented Evans, Lewis edged the American, 2:00.48 to 2:00.67.

After the race, Lewis revealed she nearly scratched from the event following the heats where she was the last qualifier. "I was going to save myself for the 400 tomorrow," she said. But Australian head coach Don Talbot and Lewis' personal coach, 79-yearold Joe King, persuaded her to sleep on it for the afternoon. She felt better after the rest and "gave it a go."

"I was having a lot of fun when I went out there," she said about the race. "It wasn't my main event, so I wasn't keyed up.

"I could really hear the crowd the last 15 meters because I turned to breathe and I heard the cheers. Then I just put my head down and went for it. I didn't know I had won the race because all the people were standing in front of the board."

Breathing toward the crowd and three lanes from Evans, she never saw the American the final lap.

Evans, who has grown to 5-foot-6 and 115 pounds compared to 5-4 and 108 in Seoul, didn't feel bad about placing second since she doesn't train for the 200. She said, "To train for the 200 would take away from the distances."

Haislett never contended and finished fourth in 2:01.13. "I didn't swim my own race," she said. "I let Janet and Hayley take control. Usually I go out in 58-low (she split 59.76). Maybe it was because of the day before. I wasn't aggressive enough."

Eric Namesnik became the second American to set a national record, but it wasn't nearly good enough to win the 400 IM. That defending champion Tamas Darnyi of Hungary won wasn't a surprise because he's unbeaten in the event since his first international competition in 1985. But he astonished the crowd by also clipping 2.39 seconds off his world record down to 4:12.36, highlighted by a sensational 57.64 freestyle. Namesnik was a distant second in 4:15.21, bettering his own U.S. mark of 4:15.57 set at last year's nationals.

"If it wasn't so windy and cold, I think I would have swum one or one-and-a-half seconds faster—not only me but all the swimmers," disclosed Darnyi, 23.

While there is little suspense to the outcome of Darnyi's races, Elena Volkova provides a lot of excitement in the 200 breast with her come-from-behind style. The tall 22-year-old from the Soviet Union qualified only seventh and stood just

sixth with a lap to go in the final. But a furious rush the final 50 gave Volkova the victory in 2:29.53, disappointing the crowd which became aroused when its own Linley Frame took the lead early in the last lap.

Darnyi became the first swimmer since 1978 to set world records in two events at the championships.

Frame held on for second in 2:30.02.

Volkova didn't mind being in lane one. "I don't like to be in the center where people are paying attention to me," she said. "I always concentrate more in the final. I put more pressure on myself. I was very sure I would win." Egerszegi put an end to a couple of patterns. Until her backstroke wins, the Hungarian titlists had all been men; she won at a stroke ruled by tall girls.

The women's 200 breast was the only event where no American made the final. "We're a little disappointed that we don't have anyone in the final because the field is not that fast," said Quick after the prelims. "Our girls' goal was to get into the final, and if they had equalled their best times they would be in."

More disappointment came in the men's 800 free relay. The Americans, who have won this race in their last six Olympic appearances, lost for the second successive time at these championships. It wasn't a surprise since past U.S. anchor Biondi, the team's ace in the hole, wasn't on the relay, and Germany could pick its squad from the best of the silver (East Germany) and bronze (West) medalists in Seoul.

Troy Dalbey and Gjertsen, members of the Olympic gold medal relay, performed well. Dalbey got the team in front with a 1:48.69 leadoff. But Steffen Zesner, the 200 free silver medalist, ripped off a 1:48.18 leg to put the Germans ahead for good. With Gross, the 1984 Olympic 200 free champ, given almost a one-second lead, the race was over. The German "Albatross" brought the team home to an easy 7:13.50 victory, 99-hundredths off the world record held by the 1988 U.S. team. Gross and 200 free titlist Lamberti, who moved his Italian squad up to third, each split 1:46.86, tied for sixth-fastest ever. Gjertsen had the next best at 1:47.35.

"I was surprised we were leading going into the last leg," said Gross, 26, who announced months ago that he would retire after the championships. "We thought the Americans would be leading by a half-second. It's fantastic to be the world champion after losing this relay by 4-hundredths in 1984 and 5hundredths in '86."

Third Day

January 9, 1991

W 400 Free M 100 Free W 100 Back M 200 Back W 400 FR

Interest in the championships picked up this day with the first sellout crowd. The Australians wanted to see their Hayley, fresh from a gold in the 200 free and silver in the 400 IM, duel Olympic champion and world record holder Evans in the 400 free.

While Evans has proved beatable in other events, she's never lost in the 400 since moving to the top in 1987. Lewis was the leading seed out of the heats, not necessarily a good omen in this meet. In the final, Evans raced to the front immediately. Lewis hung close for the opening half. Despite having the crowd behind her, the Aussie couldn't keep up with the American dynamo. Evans won by two meters in 4:08.63. She hadn't gone that slow tapered since her last trip to Australia at the 1987 Pan Pacific meet.

"For many of us, it's not the normal season," said Evans. "I thought the times would be faster. It really doesn't matter to me. My dad always says to me that in 10 years they will know nothing about the time. It is the world championship that matters.

"I was happy to get this race over. This and the 800 are my races. It's been a long three days, especially after the 400 IM and relay."

Lewis said she couldn't get to sleep for a long while after her victory in the 200 free. She couldn't remember much about the 400 free except that "Janet was in front. I tried to catch up to her, but she was just too fast."

Japan's Suzu Chiba, just 15, placed third in 4:11.44, a tremendous drop from her 4:20.93 for the bronze at the Asian Games.

Biondi, who in the 100 free has even a longer winning streak than Evans in the 400, gave the U.S. team back-to-back victories with a 49.18 win in his specialty. Like Evans, he didn't need to be near his world-record form (48.42) of 1988 to take the field. The Olympic gold medalist was in front all the *continued on page 26*

Behind The Hungarian Success

After four decades as a coach, Tamas Szechy has learned not to leave the slightest detail to chance. He brought his Hungarian national swimming team to Perth four times in order to acclimate them for the World Championships, including twice the past year for three-week training sessions. During his stays in Perth, Szechy scouted the city for a comfortable hotel (knowing the climate would be hot for the championships) with very good food and close to the competition pool. He found the deluxe Observation City hotel on the beachfront. No matter that the normal rate is \$170 a night. It was only 8 to 10 minutes from the pool. He timed the ride beforehand, noting there was only one stoplight the entire drive. For the championships, he rented a van and two cars for transport, rather than rely on a shuttle bus. Prior to traveling to Perth, the team trained for two weeks at Szombetheely in neighboring Austria which had a good indoor pool and nice accommodations.

Such careful planning helped the Hungarians set the most world records (3) at the championships and capture five gold, two silver and one bronze medal despite

bringing just 11 swimmers. Although this is the most success the Hungarians have enjoyed, they collected three gold medals twice in the past with Andras Hargitay (IMs) and Zoltan Verraszto (200 back) in 1975 and Tamas Darnyi (IMs) and Jozsef Szabo (200 breast) in 1986.

"We have a big tradition in sport," relates Szechy through an interpreter. "We have 122 gold medals at the Olympics, 13 from swimmers. The Hungarian people are talented. We have Nobel Prize winners, but they live in the United States. The people love sports. They learn to compete from the historical problems between regions."

Although Hungary is also suffering from a recession that has cut government support of sports, swimming has been spared because of its success, according to Peter Jerenyi, press chief for the Hungarian team. "The government will give money only to the best," he said, naming canoe/kayak, shooting, wrestling, modern pentathlon, fencing and water polo as the other privileged sports. Swimming is No. 1 among them. The swimming program also receives private financial support from George Zempleni, an American businessman who was born in Hungary.

The swimmers work long and hard to achieve their status. They have workouts from 6 to 10 a.m. and 4 to 7 p.m. weekdays and one training session each on Saturday and Sunday. In-between practices, they study with tutors and only take exams twice a year. Darnyi, the 23-

year-old star, is in the second of three years of high school (equivalent to a U.S. college) and is studying to become a hotel or restaurant manager. The motivation for the tough training regimen is a reward for World Championship or Olympic wins of 300,000 forints which Jerenyi says is approximately \$5,000 U.S. but about a year's salary for a middle-level

Darnyi

R U M A N I A worker in Hungary. And, of course, the national team members are given the amenities as in Perth during training and meets. The Hungarians can afford to spend more on their stars because, instead of taking a full team to championships, they bring only those they think can medal, along with maybe a couple of top prospects to get experience. The U.S. team had 43 swimmers compared to Hungary's 11.

Another factor where the nations differ is in emphasis of meets. The Hungarians use their nationals and any other meet besides the Olympics and World or European Championships as workouts. For example, at Hungary's nationals in early December, Darnyi and backstroke champion Krisztina Ererszegi both swam in 16 events, including relays. The Hungarians began pointing for Perth last June in their training. Darnyi swam at the Goodwill meet in July but unrested and only in the 200 fly.

Because the talent pool is so small, the Hungarian stars stay in the sport a long time. Also, Szechy annually leaves his Central Sports School in Budapest to visit small clubs throughout the country in search of prospects. He found Norbert Rozsa four years ago swimming at a country club 120 miles from the capital.

Szechy says he learned much from former University of Indiana coach James "Doc" Counsilman. "He's my master," the Hungarian coach stated. But the latest significant innovation in the sport came from Hungary. It's the "rolling" or "wave-action" breaststroke that Szabo used to win world and Olympic titles in the 200 breast, Rozsa to better the 100 breast record and Mike Barrowman to lower the 200 breast world record four times. **By Russ Ewald** way, although Sweden's Tommy Werner, a former teammate at the University of California, closed fast to finish only a meter behind in 49.63.

"I did everything I could to get ready (for the meet)," said Biondi, 25. "I trained the best I know how. Before the Goodwill, I felt I didn't rest enough, so I rested more. It's a hit-ormiss deal."

Krisztina Egerszegi is another who doesn't have to be at her best to win. An Olympic gold medalist in the 200 back and runner-up in the 100 back at age 14, the petite Hungarian was 24-hundredths under the 100 back world-record split (29.43) but may have gone out too quickly. She won in 1:01.78, which is 22-hundredths off her best. Teammate Tunde Szabo, also 16, gave Hungary the first sweep of the championships by taking second in 1:01.98, a personal best by 8-tenths.

"I hoped to go better after swimming fast in the heat," said Egerszegi, who qualified in 1:01.98. The youngest swimming champion in Seoul has grown from 5-foot-5 and 99 pounds to 5-7 and 119 since the Olympics.

Ever since the heyday of Rick Carey, the U.S. double gold medalist in the backs in 1984, the 200 back has been dominated by the Europeans. The continental swimmers continued their reign, taking the top five places led by Spain's Martin Zubero in 1:59.52. Of course, Zubero grew up in the United States and is a senior at Florida. He swam for Spain in the last Olympics, though, because he has dual citizenship due to his father being from Spain.

On a night where all the individual champions won in times slower than their personal bests, the U.S. women's 400 free relay broke that dubious string with a 3:43.26 victory for

Evans' 400 free got the U.S. team back on the winning track after the Americans had won just one gold medal in the opening two days of the championships. an American record. The old mark of 3:43.43 lasted a long time, shared by the 1978 World Championship team and the 1984 Olympic quartet. Haislett, who asked to lead off, put the Americans ahead to stay in 55.74. Anchor Jenny Thompson turned in the fastest split (55.29) of the day for a two-meter margin of victory over runner-up Germany.

"I really wanted to go faster than in the individual event," said Haislett, who conceded part of the reason for going first was not to have to worry about jumping on an exchange. "I was too pumped-up, went too fast the opening 50 and paid for it the final lap. But I got the team off to a good lead."

Fourth Day

January 11, 1991

M 400 Free W 100 Fly M 200 Breast W 100 Breast M 400 FR

For Mike Barrowman, a lot of time and sacrifice came down to a little over two minutes in the Perth pool. The 22-yearold swimmer had bettered the world record in the 200 breast three times and been named World Swimmer of the Year by *Swimming World* in each of the last two years. But he didn't have a world title, having finished a disappointing fourth at the Olympics. To reach that goal, the University of Michigan senior took the fall semester off—the only U.S. swimmer to do so.

"It was absolutely necessary to try whatever the outcome," he said. "If I was in college, I would never have swum what I needed in workouts because of the class time required. I needed no distractions. I find it impossible to go into a championship half-kilter."

The 200 breast was loaded, probably the best field of the championships. Besides Barrowman, the event featured Hungarians Rozsa, the 100 breast record holder, and defending champion Jozsef Szabo, the Olympic titlist; Great Britain's Nick Gillingham, who equalled Barrowman's first world mark in winning the '89 Europeans; and Spain's Sergio Lopez, who

> was under the old global standard when Barrowman set the record for a third time last July at the Goodwill. Kirk Stackle, who tied Lopez for second in that race, was a victim of the fine field, failing to make the final with only a tie for the ninth-fastest time in the heats.

> After leading the qualifiers at a meet-record 2:13.82 in the morning, Barrowman felt the need for an energy boost and ate a couple of hamburgers and chips at a nearby fast-food restaurant. At night, he led wire-to-wire and lowered his record again to 2:11.23. He took the race out harder than in Seattle, turning for home 9-tenths ahead of the split for his old mark of 2:11.53. Rosza sped the final 50 in 34.20 to take second in 2:12.03, a five-second drop. Gillingham placed third (2:13.12), Szabo fifth (2:13.93) and Lopez

World Championship Medal Totals

sixth (2:14.24) in the fastest 200 breast field in history.

"I am so happy it is over with," said Barrowman. "I've never felt so bad going into a race. My coach (Jozsef Nagy) kept telling me, 'Will power, will power, will power,' and believe me, that's all it was. There was nothing good about that race at all. I didn't care about a record. I just wanted the gold medal."

While the 200 breast lived up to expectations, the opening-event 400 free turned into a strategic race. An unprecedented three swimmers bettered the world mark at the Olympics, but in 3:49.67.

Hoffman, 20, a former East German who trains with world record holder Dassler at Potsdam, only had a previous best of 3:50.19.

"I really came here to swim the 1500," he said. "I was surprised by the time, and I was even more surprised that it was me who swam it. I think the 1500 is easier for me because I have trained for that."

Wojdat, a junior at Iowa, felt lucky to get third. "To be honest, I was taken aback by the strong finish of the Germans,"

"I've never felt so bad going into a race. My coach kept telling me, 'Will power, will power, will power."" —Mike Barrowman

gold medalist Uwe Dassler from Potsdam didn't make the German team and runner-up Duncan Armstrong of Australia retired. That left Poland's Artur Wojdat, an ex-world record holder and top-ranked the past two years, as the favorite. Wojdat's devastating late kick never appeared, though. Instead, Germany's Jorg Hoffman took the lead from pacesetter Anders Holmertz after the first 100, surrendered it to Wojdat at the 300 mark and then came back to win by two meters over teammate Stefan Pfeiffer in 3:48.04. Wojdat managed to hold on for third he said. "He (Hoffman) blew me away the last 50.

"For those who just swim and don't go to school, the timing of the meet—coming out of season in January for the Europeans and Americans—shouldn't have been a problem because there was a year-and-a-half to prepare. But for me and the U.S. swimmers in school, we didn't have the time to do it."

The Chinese swept the women's 100 butterfly as expected. But the times of winner Qian Hong (59.68) and runner-up Wang Xiahong (59.81) were disappointing after their sub-59 Breaststroke took the spotlight on the fourth day with Barrowman's world mark in the men's 200 (right) and the startling victory by late-bloomer Linley Frame in the women's 100 (below), delighting the Aussie spectators.

performances last October at the Asian Games.

"I am happy with the result because this is the first time that I have competed outdoors," said Qian, 19, who lost to her teammate, 58.87 to 58.89, in Beijing. "The weather and climate have a lot to do with it."

Qian also echoed the feelings of the other Chinese champion, Lin Li, that there was not much time to train after the Asian Games. "I think it takes time to go from one highlight to another," she said.

European champion Catherine Plewinski edged Chrissy Ahmann-Leighton for third in 59.88. Ahmann-Leighton, a junior at Arizona, became the first American in two years to break the one-minute barrier and the only U.S. swimmer other than Mary T. Meagher since 1986 with her time of 59.96.

While the crowd got excited with Barrowman's record performance, it was nothing like the cheering for the women's 100 breaststroke. Australian Linley Frame, who just missed in the 200 breast, took charge from the start of the 100 and remained in command to win by almost two meters in a Commonwealth-record 1:08.81. The 19-year-old from Melbourne, who now trains at the Australian Institute of Sport in Canberra, shaved 3.53 seconds off her previous best time.

"I just don't believe it," she exclaimed. "It's feels great. I hurt coming home, but it is such a buzz when you have the crowd behind you."

The U.S. men's 400 free relay remained undefeated in world and Olympic competition with a 3:17.15 victory. The team of Tom Jager (50.60), Brent Lang (48.77). Doug Gjertsen (49.51) and Matt Biondi (48.29) led throughout the race, beating runner-up Germany by 1.73 seconds. Biondi's split, a tie for sixth-fastest ever, gave him the top eight of all time.

Jager took the blame for the team not bettering the world record of 3:16.53. "The last three guys were on pace." he said.

28 SWIMMING WORLD MARCH 1991

Fifth Day January 12, 1991 M 200 Fly W 200 IM M 50 Free

M 100 Back W 400 MR

Melvin Stewart and Mike Barrowman have been buddies ever since they got together in Seoul and talked about their Olympic experience. "We agreed that it sucked," recalled Stewart. Both expected to collect medals at the Games. Neither did. Barrowman faded to fourth in the 200 breast and Stewart to fifth in the 200 fly. They vowed never to let that happen again.

The buddies became roommates in Perth. The previous night when Barrowman returned to the hotel after shattering his 200 breast record again, he challenged Stewart. "He told me that I would have to get out of the room if I didn't break the world record as I would be a loser," Stewart disclosed.

But Stewart, who finally got the American record last summer after a three-year pursuit, thought, "I just want to survive the race." After all, he was facing Michael Gross, unbeaten in the 200 fly in a major meet since 1984, the record holder at 1:56.24 and seeking an unprecedented third successive world title.

Gross, who likes to take the lead from the beginning and pour it on the third 50, set a blazing pace. He turned at 100 meters in 54.86, 6-tenths in front of his record split. Stewart hung close and even gained during the crucial third lap splitting 26.34, 55.60 and 1:25.44—to pull to within a meter of

The fabulous fifth day for America included a U.S.- record win in the women's medley relay by (clockwise, top left) Wagstaff, Haislett, Ahmann-Leighton and McFarlane and a sweep of the 50 by Jager and Biondi (with Prigoda, left).

the West German. The final lap the American forged ahead and increased his lead to win by two meters. His time of 1:55.69 shattered the world mark by 55-hundredths.Grossfinishedsecondin1:56.78.

During the race. Stewart said, "I was watching Gross. Every time he turned. I thought, 'Oh, God. Here we go again.' I felt a wave of pain at the 100. I usually get it at 150."

But he followed his strategy to perfection. "My plan was to draft off Michael the first 100 and take him the last 50."

Gross, 26, who took a year off following the Olympics, announced months ago that he would retire after these championships.

"I'm not disappointed at the end of my career." he said. "I swam a 1:56 again. the United States its first and only sweep of the championships. Approaching the wall, the sprint kings matched each other stroke for stroke. Jager's quicker arm action looked to be the difference as he touched in 22.16 to Biondi's 22.26. Gennadiy Prigoda of the Soviet Union took third, well back in 22.62.

"The start was quick," said Jager, 26, whose world record is 21.81. "We were all surprised we got off on the first start. The last 15 meters I was able to change gears. I took another breath (giving him a total of three). I was right on with my left arm. It's very unusual—usually I finish with my right arm. Maybe I took an extra stroke."

Biondi blamed his defeat on an awkward finish. "The timing of the strokes but I looked around after the first 100 and I was out there by myself," said Evans, "I am happy with my swims for this time of the year. The 800 felt the best."

While the U.S. team could count on wins in the 50 and 800 with its proven performers, the men's 100 back was another story. Although Jeff Rouse was topranked the last two years and the secondfastest performer of all time at 54.79, the Stanford junior had no experience in world competition. He also tends to wander into lane lines, a problem exacerbated by the outdoor location of the championships.

Rouse survived these obstacles, barely, edging Canada's Mark Tewksbury, 55.23 to 55.29. The 6-foot-3 American used a strong kick off the wall to bolt to the

"I'm not disappointed at the end of my career. I swam a 1:56 again. I can't swim 1:55.5 today." —Michael Gross

I can't swim 1:55.5 today. It's impossible. I just died the last 25. That's usual for me in a fast race."

With Stewart's win, the Americans had a chance at sweeping the night's finals. But Lin Li again proved too strong for Summer Sanders, who had qualified first in the 200 IM—more than two seconds faster than the Chinese swimmer. After Sanders led the opening two strokes. Lin inched past her during the breaststroke. They battled evenly until the final 10 meters when Lin's strong kick proved the difference by a meter-and-a-half. The winning time of 2:13.40 was 24-hundredths off Lin's Asian record set in September.

"Even though she was quicker during the heats. I still had confidence I might be able to win," said Lin, stockily-built at 5-foot-6 and 141 pounds. "I felt my strongest leg was breaststroke."

Sanders equalled her personal best of 2:14.06 in taking the silver medal. "It's a big improvement over my 400 IM. I was angry after the 400, but I knew I had to put it behind me and move on.

"My breaststroke could have been faster. I came back on freestyle. It was the first time I've ever done that."

The men's 50 has become a match race between Matt Biondi and Tom Jager. They outclassed the field again and gave was off," he said. "My start wasn't as good as it could have been, either. I am not sure if I'd done it right if I would have beaten him, anyway."

Janet Evans didn't have to worry about her start or finish. She routed the 800 field by 11 meters in a time of 8:24.05. Evans was far off her world record (8:16.22) and has swum the distance faster six times. But the win was sweet since she was upset on her last trip to Australia by the host country's Julie McDonald at the 1987 Pan Pacific meet. Germans Grit Mueller and Jana Henke, both formerly of East Germany, placed second and third in 8:30.20and8:30.31,respectively.McDonald finished far back in seventh.

"I thought it was going to be closer.

lead. He covered the first lap in a swift 25.98, faster than in his sub-55 race. A better turn by Tewksbury pulled the Canadian into a virtual tie with Rouse, who hugged the lane line next to his rival in the final stages.

"I just wanted to get out as fast as I could and put it away at the beginning." said Rouse. "I had a little trouble with the lane line. In the last 50.1 could see splashes from Mark and knew he was catching me. My legs were hurting a lot. It was the hardest race I have ever done.

"I thought I had lost. I was trying to see the scoreboard and couldn't see it for about 10 seconds—which seemed like an hour—because everyone was standing in front of it."

The Americans ended with a U.S. record in the women's medley relay for

SWIMMING WORLD MARCH 1991 31

their fifth victory of the night. They were pushed by the Australians. Janie Wagstaff put the U.S. team two meters in front with a personalbest 1:01.82—moving her up to No. 2 on the all-time U.S. list. But Linley Frame brought the crowd to its feet with a sizzling 1:08.43 breast leg (eighth fastest in history), giving the Aussies a slight lead despite Tracey McFarlane's 1:09.66 which

is the fastest-ever by an American. The screaming crowd lifted flyer Susan O'Neill to a 59.61 leg against Crissy Ahmann-Leighton (1:00.27), increasing the advantage to a meter. But no amount of noise the final leg could help Aussie anchor Karen van Wirdum against the explosive Haislett, who gave the U.S. quartet the win by over two meters in 4:06.51.

The old American record was 4:06.94, held by the 1990 U.S. Goodwill squad. Haislett became the first American ever to record a 100 free split under 55 with a 54.76 split, sixth-fastest on the all-time world list.

Ahmann-Leighton remarked, "It seemed like the whole crowd was against us. I thought I was going to fall off the blocks. I tried to use it for me, that they were yelling for us."

The victory was the last race for McFarlane, 24, who is

Rouse, above, didn't need to swim near his best time for a victory in the 100 back, but Germany's Hoffman, below, cut 11 seconds off his PR to edge Aussie Perkins in the record 1500 race.

retiring. "I was nervous because I didn't do well yesterday," said the former Texas swimmer, who was sixth in the 100 breast. "It seemed like I didn't rest enough (for the meet) because I died halfway through the final lap then. Today, I went smooth the first 50. It worked better because I went a second faster."

China, expected to challenge the Americans in the medley relay, scratched from the final. "Because we did not have many swimmers, we wanted to rest those here for the individual events," said Chinese head coach Chen Yaunpeng.

Another factor could have been the illness of Huang Xiaomin, the top-ranked 100 breaststroker for 1990. She scratched from the 200 breast to rest for the 100 and then placed only 24th in the prelims of that event.

Sixth Day

January 13, 1991

W 200 Fly M 200 IM W 50 Free M 1500 Free W 200 Back M 400 MR

> he sixth World Championships concluded in spectacular fashion with two world records the final night. In the 1500, three swimmers went under 15 minutes, led by Jorg Hoffman's record effort. Tamas Darnyi became the only swimmer to crack two global marks at the meet, breaking the two-minute

barrier in the 200 IM. Hoffman and Darnyi also became the only double individual winners of the men's competition.

The Perth *West Australian* newspaper reported the opening day of the championships that Hoffman purposely collided heavily with Perkins during an Australian workout when Germany was not supposed to be using the pool. Hoffman denied the charge at a media conference after his 400 free victory. But a U.S. swimmer reported that the German was heckling Perkins and Aussie teammate Glen Housman in the ready area prior to the 1500.

When they finally raced, Hoffman and Perkins staged a sensational duel. Perkins was the early leader. Hoffman took over at the 500 meter mark. But they were never more than 1.01 seconds apart at any of the 100-meter splits. With Perkins cranking out a 56.52 opening 100, both swimmers were easily under Salnikov's record pace throughout the 1500 meters. Hoffman needed a 57.45 finishing 100 to withstand the challenge of the young Australian, enabling the German to touch in 14:50.36 and smash the world mark by 4.4 seconds. Perkins, who had the crowd on its feet for much of the race, lost by only 22-hundredths.

Housman, the other Australian who figured in the hunt off his Commonweath win in 14:55.25 and earlier unofficial 14:53.59, was never a factor and finished fifth in 15:12.42.

"I knew I could swim this time because that is what I trained for," said Hoffman, "All I needed was someone like Perkins to push me along. I was surprised he could go the last 50 so fast. I think it was the home crowd."

Perkins said. "I couldn't see the crowd because of the lights. Every now and then, I heard a roar, though."

His coach, John Carew, thought Perkins lost the race at the turns. "Being only 17, he can improve a lot, if he keeps his keenness," the coach said.

Darnyi was keen to get his 200 IM record back after losing it to Dave Wharton, who went 2:00.11 at the 1989 Pan Pacific meet. Without being pushed, Darnyi may have put the record out of reach in recording a 1:59.36. At least, the reach of others. He said, "I think I'll be able to get under 1:59." The Hungarian great said he has never been beaten in the

FREESTYLE—Rowdy Gaines gives insight into his "classic" freestyle form. Includes actual footage of Rowdy's 1984 gold medal win. Covers starts, turns and the importance of executing them correctly.

BREASTSTROKE—Coach Gambril and Steve Lundquist discuss the history and evolution of this stroke. Demonstrations of proper body position, timing and mechanics by the U.S. gold medalists.

BUTTERFLY—Race footage of the top stars, World Record Holder Mary T. Meagher and Pablo Morales, with an analysis of their particular kick and stroke techniques. Gambril and Lundquist review their performances, give tips on body position, water entry, drills and dryland exercises.

AT YOUR SERVICE

Some of the finest U.S. coaches as well as 1984 Olympic team members to instruct you in their specialties

Don Gambril's Gold Medal Series

Each tape in the GOLD MEDAL SERIES provides Olympic highlights, winning techniques, training and motivation by Coach Don Gambril and the top U.S. Olympic swimmers in each event. Using underwater, slow-motion and freezeframe photography, they offer extensive instruction to help the beginner, as well as the serious competitor, improve his performance. **\$72.45 each.**

BACKSTROKE—Coach Gambril and Rowdy Gaines discuss everything from getting started in the stroke to refinement of techniques at the Olympic level. Film clips of Dave Wilson, Rick Carey and other Olympic backstroke swimmers and slow-motion analysis of the skills they utilize for backstroke sprint and distance events.

Don Gambril's Classic Series

Men's Swimming—Expert technical instruction from top coaches for sprint and distance freestyle, back, breast and fly. **S52.45 each.**

Swimming Techniques—Teaching and learning techniques for sprint and distance free, butterfly, breaststroke and backstroke. **S62.45 each**.

Coaches' Drills—Featuring tried and tested drills for freestyle, backstroke, breaststroke, butterfly, and starts and turns. **S62.45 each.**

200 IM and last lost in the 400 IM to teammate Jozsef Szabo at Budapest in 1985.

Eric Namesnik again was the closest pursuer, finishing four meters back in 2:01.87. Wharton repeated his Olympic disappointment of not making the final, managing just ninth in the prelims. "I did not swim well at this meet, said Wharton, who also only tied for fifth in the 400 IM after being the silver medalist in Seoul. "If I knew what was wrong, I'd have done something to fix it."

After qualifying first and then being beaten in the IMs, Summer Sanders chose a different tactic for the 200 fly. She took it easy during her heat and entered the final as the fifth seed at 2:13.93 compared to a 2:11.25 for top-qualifier Rie Shito of Japan. The strategy worked as she stayed in front the entire distance, increasing her margin to three meters by the finish in going a personal-best 2:09.24. the 50 of 25.87 in 1989 but wasn't among the top 50 last year. Teammate Yang Wenji, the world record holder at 24.98, tied for fourth with Jenny Thompson in 28.87.

Krisztina Egerszegi joined Janet Evans and Lin Li as double winners in the women's competition. She blew away the 200 back field, finishing five meters ahead of runner-up Dagmar Hase of Germany. Her winning time of 2:09.15 was the secondfastest performance of all time. Egerszegi was never on pace of the world record of 2:08.60 held by Betsy Mitchell. But, considering a cold wind—worst of the six days—blustered toward the starting end, her swim was tremendous.

Janie Wagstaff, who was third in 2:13.14, was very conscious of the wind. "It was really tough, especially the third 50 because you're tired and going against it."

Egerszegi, though, didn't mention the conditions. She said, "I

"I felt very strong...I was hoping to break the record. That was my aim. I think I can go faster."

"This is my favorite event, and that helps a lot," said Sanders. "I was just going out there, do my best and see what happens. I don't know why my swims have been unpredictable— maybe because this is my first World Championships. I just kept trying to have a positive attitude."

Shito overtook Australian hero Hayley Lewis the final lap to collect the silver in 2:11.06. Lewis collected the most individual medals in the women's competition—agold, two silvers and a bronze.

China suffered its biggest disappointment as Wang Xiaohong and Qian Hong, ranked second and third in the world last year, placed just 11th and 20th in the prelims.

In the women's 50, China got a pleasant surprise as Zhuang Yong, rebounding from a disappointing performance in the 100, came from behind to touch out Leigh Ann Fetter and France's Catherine Plewinski in 25.47. Fetter equalled her U.S. record of 25.50 in tying Plewinski for second. Zhuang, 18, runner-up at the Olympics and top-ranked last year in the 100 free, had a best in felt very strong. I was watching everyone around me, but I was hoping to break the record. That was my aim. I think I can go faster."

-Kristzina Egerszegi

The German team, carrying on a West German tradition undoubtedly inspired by Michael Gross—of dressing up for the final event, appeared in animal costumes for the men's 400 medley relay. But the race turned into a two-team battle between the Americans and Soviets.

The U.S. team needed Matt Biondi to pull out the victory after Dimitriy Volkov had given the Soviets the lead with a 1:00.74 breaststroke leg, fastest in history. Biondi quickly made up the small Soviet lead and gave the U.S. team a two-meter win in 3:39.66. With the wind still heavy, the Americans didn't threaten the world mark of 3:36.93 held by the 1988 U.S. Olympic squad.

The third-place finish by the Germans gave Gross a 13th medal in World Championship competition, adding to his record total. \bullet

PERTH, Australia—Early in the last decade, China's national diving team coaches developed a system to identify and recruit youngsters at age 8 with the ideal physical characteristics to be successful in the sport. The program elevated the Chinese to the leader in total medals won by the last World Championships in 1986.

With U.S. great Greg Louganis retired, this year's championships held Jan. 3-13 indoors at the Superdrome complex saw the Chinese dominate the gold as well as the total medal count. They captured four of the six events-1-meter events were included for the first time (they aren't in the Olympic program however). Gao Min was the leading individual, taking both women's springboard events. A veteran at age 20, Gao extended her unbeaten streak on 3-meter in major meets to six years. Demonstrating how well the Chinese program works, 14-yearold Sun Shuwei and Fu Mingixia, 12, took the men's and women's platform, respectively-Fu becoming the youngest titlist in any sport in World Championship history.

The United States, which finished second in the total medal count with four behind China's nine, was not without a shining

moment. Kent Ferguson, a six-time U.S. champion but never a winner at a mjaor international meet, won the men's 3-meter over China's Tan Liangde, two-time Olympic silver medalist to Louganis. Ferguson's victory kept alive the U.S. perfect record in the event in championship history, following in the footsteps of the late Phil Boggs (1973-75-78) and Louganis (1982-86).

U.S. co-coach Ron O'Brien said. "While we're no longer on an even footing with the Chinese, they weren't totally dominant. They weren't so far ahead that they're not catchable."

O'Brien believes that to close the gap U.S. Diving, the American governing body, has to institute its own selection process of youngsters for diving and standardize technique instruction and training.

"We can't match the Chinese program because of their political system (the government control and support), but we can do a much better job. We're going to have to identify talent by coming up with a battery of tests and go out to the communities and then develop those youngsters. We have to be sure local-level coaches are trained. We can't leave that to chance. We must implement a program at the junior Olympic level to see that divers are learning the proper techniques."

Men's 1-Meter

In the opening men's event, Holland's Edwin Jongejans became the first diver outside of the United States and China to collect a gold medal at the championships since 1978. Jongejans, though, has trained the past five years in Miami with his sister Daphne, a 3-meter bronze medalist in 1986.

The Dutch diver moved into the lead in the third round and stayed there as the other contenders self-destructed. He won with 588.51 points, 10 more than runner-up Lenzi.

"Idon'tthink you can expect to win a gold medal," said Jongejans. 24. "I thought I was one of five or six guys who could win it."

Lenzi, the 1989 World Cup winner, needed a strong final dive-getting 7s and 8s on a reverse twister (3.0 degree of difficulty)-to hold off China's Wang Yijie by 36-hundredths of a point. The former Indiana diver, 22, competed despite a bad ankle still bothering him since being injured last March.

> "If Chuck (Felder, a U.S. team trainer) wasn't here, I wouldn't be here," said Lenzi. "He worked on it all day. I'm really happy for getting through the competition."

Men's 3-Meter

In the closest competition of the diving events, Ferguson led Tan by less than two points going into the final round.

But the 27-year-old American felt no undue pressure because he didn't know exactly where he stood in the standings. He never does because he feels he can keep himselfmore relaxed and focued on his dives.

Diving seventh from the end after a poor prelim performance, Ferguson came through with the highest score of the event—83.16 points (two 8s, two 8.5s and a9) on a reverse twister (3.3). Tan still had a chance to beat Ferguson which he'd done on the last dive twice in the past at the 1987 and 1989 World Cups. O'Brien told this to his diver who put on his headphones and went outside to do some word puzzles. Tan would win by getting at least four 8.5s and an 8 on an inward tuck (3.4). Instead, he got three 7.5s and two 8s to give Ferguson the victory, 650.25 to 643.95. win. He overcame a bad dive on an armstand reverse tuck in the sixth round when he was way short for 3.5s and 4s.

"I'm not strong enough to do that difficult dive," he said. Otherwise, size is on his side.

Soviet diver Georgiy Tchogovadze, the bronze medalist at 580.68, is 5-10 and 149 pounds. He said, "For me, it's (being so tall comparatively) is a big problem (on platform)."

Women's 1-Meter

Because it's a new event to international competition and absent from the Olympics, the 1-meter is given less emphasis by the Chinese as the other two boards. And Gao Min's training has been interrupted by shoulder and foot injuries

"I'm in a state of disbelief. When I get here, I feel it's icing on the cake." —Kent Ferguson

"I'm in a state of disbelief," said Ferguson, who missed by one place of making each of the last two Olympic teams. "When I get here, I feel it's icing on the cake. The trials are much more intense.

"It (the victory) gives me confidence to know I'm up there."

Men's 10-Meter

Xiong Ni, as a 14-year-old, pushed Greg Louganis to the limit at the Olympics and the following year became the World Cup champion. But, in China, you can't rest on your laurels. There's always another young phenom to supplant you.

Leading through seven rounds, Xiong came up short on back and reverse tucks and was overtaken by 4-foot-8, 77-pound Sun Shuwei. The final round saw Sun tackling the most difficult dive of the event, a reverse tuck (3.4) and needing at least three 6s and two 6.5s for the win. He responded with four 8.5s and an 8 for the highest score of the contest and a final total of 626.79. Xiong gave China the only sweep in the diving competition with 603.81 points.

Sun, who only began competing internationally last May and was just sixth at the Goodwill meet, wasn't expecting to suffered last October at the Asian Games. She aggravated her shoulder problem two days before the competition and needed a cortisone injection. In the prelims, she finished only fourth.

Yet, the following day in the final, Gao moved into the lead on the last required dive and never looked back. The 20-year-old Chinese star built up a 21point advantage going into the last round by nailing an inward pike (2.4) for 61.20 points, the highest score of the event. Even a subpar final effort in which she got 6s and 6.5s on an inward pike (2.4) lefther 10 points in front of the field at 478.26 as all the divers experienced trouble during the optionals.

"Because I had little training (due to the injuries), I was very nervous from the beginning to the end," said Gao. "Hurting my shoulder affected my confidence. But I never gave up."

Wendy Lucero held the second position from the fifth round on. The 27-yearold American lost a chance to catch Gao when she went over on a reverse twister (2.6) on her ninth dive. She came back to hit an inward pike (2.4) for 8s and 8.5s and finish with 467.82 points for the silver.

"I didn't expect to do so well because

I haven't been competing up to par," she said. "I didn't back down. I went for my dives and maintained consistency. That was a breakthrough."

Lucero has been bothered by an injury to the leg she uses to take off and didn't make the U.S. team on 3-meter where she was an Olympian.

Women's 3-Meter

Gao Min has an incentive to continue her dominance in diving. If she finishes in the top 10 of a public poll conducted to select the favorite Chinese athletes, she receives from \$1.000 to \$2.000 from the government. That is a lot of money when you consider the average Chinese worker only makes \$40 a month.

On 3-meter, Gao is like money in the bank at the big meets. In the final, she led for all except the opening round. Again as on 1-meter, her best effort came in the ninth round when she became the only competitor to get over 60 points on a dive with 7.5s on an inward pike (3.0). She went over on a final-round reverse twister (2.9) and yet won by 14 points with a 539.01 total.

"This championships is a hard job for me," said Gao. "I got help from the doctors and coaches of our team. My shoulder felt better than during the 1-meter event."

Soviet diver Irina Lashko, runner-up to Gao at the World Cup and Goodwill meets, was second again with 524.70 points. She said, "I know Gao is stronger on 3-meter. I think she works harder than the other divers."

Women's 10-Meter

Fu Mingxia may have been just 12 years and 149 days old, but she performed like a nerveless veteran. The Chinese diver excelled on the optionals, taking advantage of her small build she's 4-foot-8 and 90 pounds—to perform by far the most difficult list of the event. She scored over 60 points on all of them, the only competitor to do so, in amassing a total of 426.51 to win by 23.

"I was not thinking about getting gold before the competition," said Fu, a former gymnast who has been diving for four years. She added, though, she wasn't nervous because this was her fourth international competition.

Soviet diver Elena Miroshina, 16, lifted herself into second on the last dive when she got the biggest score of the event—72 points—on a back twister (3.2).

Getting the bronze was a deja vu experience for Wendy Williams. Just as in Seoul, she came through with her best score on a final inward pike (2.8) to pass a Chinese diver for third.

"Ifeel I'm constantly having to prove myself," said Williams. 23. "I'm always asked if I can compete with the Chinese. I didn't dive my best, but I'm happy with my performance."

The diver Williams passed this time was Xu Yanmei, the Olympic gold medalist. Xu was the top qualifier in the prelims and led in the final until coming up short on a forward pike (3.0). According to Chinese coach Xu Yiming, his star missed too much training because of shoulder and hip injuries and consequently was not strong enough physically to perform well the second day.

Kim Chun-ok, a 15-year-old North Korean, impressed with a fifth place finish in her first world competition. She improved rapidly after training with a Chinese coach in her country.

-By Russ Ewald

Top left, clockwise, Dyroen, Babb, Karen and Sarah Josephson, Schneyder, Svitenko, Savery and Simmons gave the USA its first team win since the 1978 meet.

For the first time in over a decade, the United States captured a World Championship title in both duet and team events.

While USA-Canada-Japan once again dominated the medals, it was evident other countries (most notably the Soviet Union and China) making their second World Championships appearance would be top contenders in the near future.

Overall, the quality of the competition was the highest ever with marginal point differences separating the medalists from the finalists. Even "Down Under," synchronized swimming proved its popularity among spectators by becoming the World Championship's first sold-out event.

Solo

Canada's Sylvie Frechette overcame all obstacles to win the solo title. In past years, she had been overshadowed by fellow Canadian Carolyn Waldo, gold medalist of the 1986 World Championships and 1988 Olympic Games. She had also been beaten twice by USA's Kristen Babb.

But at Perth, Frechette started things off right by impressing the crowd and judges in the preliminaries with an unusual display of flexibility, strength and showmanship.

At the end of her $3^{1}/_{2}$ -minute routine, she performed an upside down split while clapping between her legs to the music.

This crowd-pleasing maneuver earned her a 98.36, a slight 2-tenth lead over Babb (98.16).

Two days later, Frechette turned in a strong compulsory figure performance to win the figure competition. Since figures make up 55 percent of the total score, the 23-year-old Montreal native went into the finals with a comfortable 4-point lead.

After being out for a year due to a serious back injury, Babb proved she was ready to compete head-to-head with Frechette. Swimming to Stravinsky's "Firebird," Babb displayed her distinctive, powerful style in a more difficult and well-balanced program.

While the judges awarded Babb with five 9.9s in Technical Merit and six 9.9s in Artistic Impression for a total score of 98.880, it was not enough to overtake Frechette's three 10s in Technical Merit and four 10s in Artistic Impression for a total routine score of 99.480.

Combined with figures, Frechette's winning margin was 201.013 to 196.314. Japan's Mikako Kotani, 1988 Olympic bronze medalist, took third with 195.110, followed by the Soviet Union's Olga Sedakova.

Frechette and Babb have now met head-to-head four times with each beating the other twice. "This is one time," stated Babb after her performance. "We are now even in wins and losses—it's anyone's ball game."

Duet

After nearly closing the gap on their Canadian rivals, Waldo and Cameron, at the 1988 Olympics and taking a year off in 1989, U.S. duet partners, Karen and Sarah Josephson, won their firstever World Championship title by dominating the competition.

After prelims, the "J's" (as they are often referred to) had a half-point lead over the Japanese duet of Mikako Kotani and Aki Takayama, 98.960 to 98.400.

The Josephsons finished the compulsory figure competition in second and third place with a combined figure average of 100.242—the highest duet figure average in international competition history. From there, the "J's" were never challenged.

They earned two 10s in Technical Merit and six 10s in Artistic Impression in finals and made synchro history by scoring the highest overall total score, 199.762, claiming the title by $5^{1}/_{2}$ points.

"It's great to be back," the twins said in unison. "It felt good. It was a fun swim. We were more relaxed than usual because of our figure lead," Karen continued.

"Because of our comeback, we knew that our performance had to be better than in the Olympics. Everyone remembered our performance there, and it was important to perform as good or better here," Sarah added.

Finishing behind the Josephsons were the Japanese duo (194.307) and the Canadians, Lisa Alexander and Kathy Glen (192.649).

Overall, though, it was the fourth-place Soviets (192.269) who earned the respect of the synchro world with their highly spirited, crowd-pleasing performance that brought the sport closer to global recognition and participation by challenging the traditional powers.

Team

While not recognized as an Olympic event, the team com-

38 SWIMMING WORLD MARCH 1991

The Josephsons, left, were the only synchro swimmers to capture two gold medals, taking the duet and helping the U.S. squad end Canada's win streak at two in the championships. petition (eight swimmers) is, perhaps, the sport's most popular event among spectators and participants alike. And as the first sold-out event of the VI World Championships, spectators witnessed several firsts:

• It was the first time in team competition that all 10s were awarded for Artistic Impression (accomplished by the United States).

• China and Italy finished among the top eight for the first time at a World Championships.

Even though the United States entered the finals with $a 2^{1}/_{2}$ -point lead, Canada quickly applied some pressure with a spectacular first move in which a swimmer was raised above the surface to a standing

position and another swimmer was boosted six feet above the water and over the standing swimmer.

Their creative choreography earned them six 10s in Artistic Impression and five 9.9s in Technical Merit for a routine score of 99.280.

But the Americans showcased their ability to combine athletics and artistry with a near-flawless execution, earning three 10s for Technical Merit and straight 10s in Artistic Impression for a 99.640 score. Added to their figures, their gold-medal total was 196.144.

Canada took the silver (193.259) and Japan the bronze (189.753). \bullet

Long Distance Swimming

"With 8,000 meters to go, I started to pick up the pace," explained Chad Hundeby about his strategy during the inaugural 25-kilometer event at the World Swimming Championships. "For the first five miles I just hung with the leaders, swimming strong, but fairly easily." The early leaders included a trio of 22-year-olds: American Jay Wilkerson, Australian David O'Brien and Italian Sergio Chariandini.

At the 8-mile halfway point, 6-7 Chariandini and German Christof Wandratsch began to push the pace in the unusually calm water of Perth's Swan River. Hundeby remained behind, swimming at a controlled sub-1:15 per 100 meter pace. Flip Darr, Hundeby's "eyes and ears" aboard his escort boat, urged Hundeby to stick with his patient race plan. Darr, capitalizing on the navigational error, signaled to Hundeby to make his move. In short order, he caught Wandratsch, O'Brien and two other swimmers. O'Brien, who ended up third in 5:08.53, attempted to stay with Hundeby, but the SMU sophomore was up to the challenge: "There comes a time in every race when you have to make a decision. I just picked up the intensity. You have to ask yourself, 'Why am I here?'"

With four miles to go, Hundeby answered his self-imposed question by finally passing Chariandini and then slowly opening up a $1^{1/2}$ -minute lead that continued onto the finish. A characteristically modest Hundeby said, "I felt good. (The 5:01.45 swim) was a gratifying win that I've worked toward for

"There comes a time in every race when you have to make a decision. I just picked up the intensity." —Chad Hundeby

"I didn't go out as hard as I have in the past. I've crashed (and lost) my other two 25-km swims," Hundeby said later. "He negative-split the swim and concentrated on taking in enough fluids," added Darr, who provided Hundeby with sports drinks and pre-arranged hand messages at least every 20 minutes.

Unfortunately for Chariandini and Wandratsch, their escort boats went slightly off course around the 9-mile mark. a long time."

In contrast to the subdued Hundeby, a more flamboyant Australian won the women's race. Shelley Taylor-Smith, wearing a two-piece bikini suit that was approved by FINA the day before the race, had burst into a quick lead in the first mile over her two American rivals, Martha Jahn and Karen Burton.

Both Jahn and Burton, who had handed Taylor-Smith her only defeat in 1990 over this same course and distance, were

confident of their ability to catch Taylor-Smith. "We've trained well, regularly swimming straight 15.000-meter swims in the pool and doing 3-4-hour lake and ocean workouts as often as we can."

However, once Taylor-Smith, a former University of Arkansas swimmer, was able to extend her 70-meter lead achieved in the first mile, her confidence grew, and she never looked back. "When I was in front by 200 meters (at the 5-mile mark). I knew there was no stopping me."

Not even three different kinds of jellyfish could stop the hometown-favorite Taylor-Smith (tenth overall in 5:21:05), who was able to lift up the bottom of her bikini top to remove the ever-present jellyfish. Meanwhile, Jahn, who finished second in 5:25:16, "gave it all that I had to give" while swimming with a badly swollen face due to numerous jellyfish stings.

The American team captured the overall team championship for the fastest three cumulative times (15:41:21) with Australia second (15:49:26). The Hungarians, nearly matching the performances of their countrymen in the pool, placed a surprising third overall. "We achieved nearly all of our goals, especially the team championship. I've worked so long and hard with these kids. They're great," said an obviously happy national team coach, Penny Dean.

And, to the surprise of no one, Hundeby was back in the pool the next day training for the upcoming NCAA season and the next 25-km race at the Pan Pacifics. "(At the finish) I felt like I could do another one." No doubt Hundeby's chance will come soon enough.

-By Steven Munatones

U.S. swimmer Hundeby (center) from the Irvine (Calif.) won the long distance event followed by Italian Chariandini (left) and O'Brien of Australia.

Water Polo

Men

33.31.30.29. These aren't your winning lottery numbers. These are the ages of some of the members of the U.S. men's national water polo team. The average age on the team is 27, but it didn't ring out "jackpot" in team experience.

The American men's squad, touted as a possible favorite in the FINA VIth World Championships in Perth, fell below medal expectations with an inexperienced squad.

Although missing their first World Championship medal, the U.S team did get the monkey off its back by sealing a bid for the 1992 Olympic Games.

Going into the tournament, the U.S needed leadership. Joining the international unseasoned crew to help that effort was 31-year-old Terry Schroeder—the living legend of American water polo.

"Our team has a lot of young players who are starting to get some good international experience. Now we know that we can play with anyone in the world," said Schroeder, who rejoined the team after the 1990 Goodwill Games.

Behind Schroeder's leadership, the American squad cruised through the opening round of the round-robin tournament with wins over Canada, France and Australia.

U.S. goalie Craig Wilson, one of the few veterans on the team, put a lid on the goal throughout the first round with 27 saves to back up U.S. head coach Bill Barnett's theory—defense wins championships.

At this point the Americans were thinking gold medal.

Wilson recorded 12 saves in the Americans' next game with Germany, but nine squeaked through as the Americans were handed their first loss of the tournament, 9-7. The following game, the Americans needed a win or a tie to advance to the medal round. They held off a latesurging Hungary to salvage a 9-9 tie.

"Our counter-attack defense broke down alittle," said Chris Humbert, U.S. two-meter man, but "overall it was a pretty easy win for us."

Although Humbert was a little confused with the outcome, Coach Barnett wasn't. "We're in! We're going to the Olympics!"

The U.S. secured their Olympic bid, but Yugoslavia

was on tap next. In past tournaments, the U.S. has spun itself into a superstitious jinx against the Yugoslavs.

"We came out on them 5-2, but unfortunately, it was the same score we had on them in both the '84 and '88 Olympics before losing to them," said Schroeder.

The jinx came back to haunt the U.S. again as Yugoslavia took advantage of three 6-on-5 situations to escape with a 7-6 win.

With at least a bronze medal still on the horizon, the Americans were rematched with the Hungarians. Hungary gained sweet revenge on the U.S. with a 13-12 win.

The gold medal game pitted defending world champion and '84 and '88 Olympic champion Yugoslavia against a smaller and less experienced Spanish team.

The Spaniards game plan of cracking down inside on powerful Igor Milanovic almost worked, but a few lapses resulted in costly 6on-5 situations. Spain held to within one goal in the final minute, 8-7, and gained control of the ball with 19 seconds remaining. A no-look shot hit the right sidebar and bounced away in the waning seconds. Milanovic demonstrated his world-class prowess with two goals in the last three minutes to lead Yugoslavia to its first title defense.

"We knew it would be difficult because finals are always very close," said Milanovic after his team and Coach Nicola Stamenic celebrated with a bottle of champagne in the pool. "They have a good team, but they are too young."

Looking down the road to the '92 Olympics, the Yugoslavians

will again be the team to beat. If the American team finds the right chemistry of experience, they could improve on their silver medal finish at the '88 Games and bring home the gold.

Women

This time it was in Australia. The three times before it was in Spain, Ecuador and Germany. The setting changed, but the result was the same—the United States women's water polo team claimed its fourth consecutive World Championship bronze medal.

The American women downed Hungary for the bronze medal at the VIth FINA World Championships. Previous bronze efforts for the women were in Berlin (1978), Guayquil (1982) and Madrid (1986). Maureen O'Toole-Mendoza, one of the top players in the world, has been a member of the U.S. squad on each of those four teams.

Presently, she is set on retirement, but one scenario would bring her back.

"I'm going to retire after this. If they put it (women's water polo) in the Olympics I would probably come back and try out for the team because it's a goal I've always wanted in life," she said.

O'Toole-Mendoza and her mates sent Australia "down under" on the scoreboard, 8-7, in first round action. The victory over Australia, one of the pre-tournament favorites, gave the Americans early relief.

"It takes all the pressure off us now," said U.S. head coach Sandy Nitta. "We are now dealing the cards. Fate is in our own hands."

Coach Nitta felt the U.S. was handing out the cards, but Hungary showed up for the next hand and broke the dealer, 10-8.

With the loss, the U.S. faced a must-win situation to advance to

the medal round. Brazil, who took a 21-1 pummeling from Australia, took another pummeling from the U.S., 14-0.

The U.S. advanced to the medal round to face Holland. The Dutch, world champions in '78 and '82 and runners-up in '86, took the Americans out of the quest for gold with a 9-6 triumph to advance to the gold medal game.

Once again, the Americans eyed "old reliable"——the bronze medal. Standing in the path was a rematch with Hungary.

Driver Theresa Breckon grabbed the reigns of the U.S. offense and scored what proved to be the game-winning goal. Margo Miranda's goal with 28 seconds remaining sealed the win and the U.S. turned the table on Hungary, 11-9.

"It was the first time the girls came out and weren't playing careful. They seemed less tentative," said Nitta.

The U.S. was inked in the books for another bronze, but the gold medal match between Holland and Canada was still pending.

Holland, the dominant international force in women's water polo, already had two world championships and five out of the possible seven FINA World Cup Championships to its credit.

Canada proved to be just a formality for Holland as they successfully defended their World Championship title with a convincing 13-6 win.

Women's waterpolo has experienced great success at the World Championship level, but the next order of business is to see it in the Olympics. If it does make the Olympic format, then the sport hasn't seen the last of Maureen O'Toole-Mendoza and the United States. —By Matt Farrell

dream for most swimmers is to find a high school with exemplary academics, a strong interscholastic swim team, and easy access to a year-round USS program all on the same campus. This dream is a reality at Pine Crest.

Founded in 1934, this college preparatory school serves boarding boys and girls in Grades 7 through 12 as well as day students from Pre-kindergarten through Grade 12. The academic program offers Advanced Placement courses in all departments and there is a variety of offerings in band, dance, chorus, drama, studio art and political activities sponsored by the unique Institute for Civic Involvement. The Upper School Computer Lab houses 24 networked Apple Macintosh SE models.

Pine Crest students enjoy the benefits of participation on more than 50 athletic teams, including varsity swimming and diving. They may also join USS swimming and USD diving teams. One 50-meter and two 25-yard pools form an aquatic complex located on the 47-acre school campus.

You are welcome to contact Dr. John W. Harrington for information about the academic and boarding programs. His telephone number is (305) 492-4103. There is a policy of non-discrimination in all school programs.

Pine Crest School 1501 Northeast 62nd Street, Fort Lauderdale, Florida 33334-5199 Admission Office: (305) 492-4103, Fax: (305) 492-4167

AGGIE SWIM CAMP

June 23-28, June 30-July 5

Carol or Mel Nash Aggie Swim Camp Athletic Department Texas A&M University College Station, TX 77843 409-845-5545 (office): 409-693-6761 (home)

Mel Nash. head coach of men's and women's swimming at Texas A&M University. has coached Pan Am and Goodwill Games gold medalists. and is a former Pan Am and world champion swimmer. He and his highly-qualified staff will spend a week with you on the beautiful campus of Texas A&M perfecting strokes, starts and turns. In addition to technique work. there will be one or two water workouts daily depending on age. ability and training background. Elite training camp available. Videotaping sessions with stroke analysis will be held and each camper goes home with a video shot above and below water. Our excellent staff-to-swimmer ratio (approximately 1:6) affords the opportunity for individual attention. Limited enrollment facilitates one-on-one coaching. Live and eat on campus in air-conditioned dorms. The pool complex houses an outdoor 8-lane. 50meter pool and a 6-lane. 25-yard pool. plus an indoor 8-lane, 25-yard pool. Girls and boys ages 8-17. Cost \$325.00. Spend a great week of learning, training and fun with us in Aggieland! See display ad page 50

CAMP AK-O-MAK

June 27-August 15 (7- and 5-week sessions)

Marci and Buddy Williams

3631 Mandarin Woods Dr. N. Jacksonville. FL 32223 *800-368-4152*

For 62 years a personal development and wilderness sports camp for young girls. Located on Ahmic Lake. Ontario. Canada. Summer swimming as it should be. outdoors in one of Ontario's beautiful wilderness settings. A complete camp experience with overnight canoe trips and skills taught in sailing. tennis. golf and 23 other sports. Competitive and noncompetitive swim programs in 50-meter. 50-yard and 25-yard bulkhead pools that complement our open-water swimming. The purpose at Ak-O-Mak is to expose campers to other sports activities while maintaining and improving their swimming skills. Individualized instruction according to needs and interests. Activities selected to strengthen and develop the competitive swimmer. Staff members are chosen for their ability to teach and inspire young athletes to set meaningful. challenging and achievable goals not only in swimming and sports. but in all aspects of life. Visiting coaches enhance our daily programs. This summer's special coaches are Micki King. last year's Diving Coach of the Year: Ray Bussard. 1984's Olympic swim sprint coach: and Carolyn Waldo. double Olympic gold medalist in synchronized swimming. Seven- and five-week sessions. with enrollment open to girls age 8-17. \$2020 7-week. \$1750 5-week. Enrollment is limited to 100. Brother camp Chikopi. Write or call for literature and information. See display ad page 56.

ANNAPOLIS WATER POLO CAMP

June 23-28

Annapolis Water Polo Camp U.S. Naval Academy Annapolis. MD 21402

301-267-3958

This summer's seventh annual Water Polo Camp will be held at the historic U.S. Naval Academy in Annapolis. Md. Campers live and eat in the Bancroft Hall dormitory. Day campers are also welcome. Camp director is Mike Schofield, head coach at Navy. and the Annapolis Water Polo Club. Camp staff will include: U.S. men's national coach Bill Barnett. U.S. women's assistant national coach Lynn Kachmarik. Randy Burgess. Paul Barren. Mladen Stanicic. Ron Akins and many other nationally respected coaches. Student-coach ratio will be 8:1. Training program: 2 or 3 sessions per day. Emphasis will be on individual skill development. Workouts will include conditioning. individual and group skill building. drills, game situations and scrimmages. Classroom time will cover strategy. mental preparation. offensive and defensive team concepts. Enrollment: Open to players from age 11 to rising high school seniors (male and female) excluding 1991 graduating seniors. due to NCAA rules. Some previous swimming water polo experience necessary. Younger applicants will be considered individually. Cost: Resident \$300. Day Campers \$200. Write or call for brochure.

ARIZONA SPORTS RANCH STROKE SPECIALTY CAMPS

June 2-9, June 9-16 (breaststroke) June 16-23, June 23-30 (freestyle) June 30-July 7, July 7-14 (butterfly) July 14-21, July 21-28 (backstroke) July 28-Aug. 4, Aug. 4-11 (IM)

Bob Gillett, Swimming Coach

Arizona Sports Ranch Training Center 19232 N. 38th Street Phoenix. AZ 85024 602-569-1457

A unique swimming camp format for the advanced age group swimmer-limit is 32 swimmers. Ten one-week camps-two weeks on your specialty recommended. The objective of the camp is to bring together the top young swimmers in each stroke event. The swimmers get to know the top individuals from around the country in their specialty, who they will be competing against during their senior careers. It is very motivating to have great friends at the national level! They learn together and see what other top age group swimmers are capable of doing and how they progress. A number of top 9-10. 11-12. 13-14 and young Junior National swimmers have already committed to their specialty weeks. In addition to stroke-specific workouts. the swimmers participate in many unique. fun training sets using "Flex-Lane Training." Each swimmer receives videotape stroke analysis using the unique ASR "Swimming Video Chalkboard." Each swimmer receives several "Computer Assisted Race Evaluations." which identify the specific changes that are needed for faster swimming! The swimmer participates in a lecture series designed to assist them in becoming a very positive, supportive influence on their home team! ASR is operated on site by owner. swim coaches Bob and Kathy Gillett. Both have masters degrees in physical education and have had many years of successful professional experience at all levels. from local level to world class. Kathy is a college professor of physical education. Bob is an ASCA level 5 coach. He is the originator of CAREPAK— Computer Assisted Race Evaluation and many other innovative swim concepts. ASR Training Center is a 10-acre sports facility. with a 25-yard by 50-meter swimming pool, and another 25-yard pool, in addition to many other sports facilities such as lighted tennis courts. basketball. volleyball. soccer. club house. Ranch House and others. Cost: \$400 per week. See display ad page 54.

BALL STATE UNIVERSITY SWIMMING AND DIVING CAMPS

June 2-7, June 9-14, June 16-21, June 23-28 (stroke, start/turn)

July 14-19, July 21-26 (high school) July 14-19, July 21-26 (diving, boys girls 8-17)

Ball State University

Swimming and Diving—Laura Seibold-Caudill Women's Athletic Department Muncie. IN 47306 317-285-5173

Four one-week sessions concentrating on stroke analysis, starts and turns; two one-week training sessions for high school girls and boys: two oneweek sessions for diving. Head coaches. Bob Thomas and Laura Seibold-Caudill. have been coordinating for the last 12 years in developing one of Indiana's finest summer camps for age group and high school swimmers and divers. The campers live and eat in the dormitories under full supervision of qualified counselors. Daily routines include: early morning workouts. lectures, biomechanical analysis and videotaping. Evenings are filled with organized recreational and social activity. Each camper will receive an official camp T-shirt. photograph and booklet. Meals are included in the session price. The cost per session is \$240 with special rates for local commuters. NOTE: This is a camp for competitive swimmers eight years and older. Divers should have knowledge of the forward approach and required dives from each of the five categories.

BLUE DOLPHIN SWIM CAMP

June 17-22 (girls); June 24-29 (boys)

Mr. James E. Longnecker

Swimming and Diving Coach Grove City College Box 2613 Grove City. PA 16127 412-458-2110 (office)

Grove City College in Grove City. Pa., will be the site of the 24th year of the BDSC. Jim Longnecker. Grove City College swimming and diving coach. is the director and founder of the BDSC. He was recognized in 1977 as a Master Coach and in 1987 as a Distinguished Coach by the College Swimming Coaches Association of America for his outstanding contribution in the field of swimming and diving. Other staff members include some of the finest high school and college coaches from western Pennsylvania. Ohio and New York. The facilities include an 8-lane pool. 25-yard course: 6-lane pool. 25-yard course: Nautilus training center: three gymnasiums. eight racquetball courts, and an 8-lane bowling alley. The BDSC has been designed as an elite stroke camp to develop proper starts, turns and stroke mechanics in the four competitive strokes. This translates into maximum efficiency and better swimming performances. Practices does not make perfect, but perfect practice makes perfect. There will be 24-hour supervision. Girls and boys ages 9 years and older (no graduating seniors). The cost is \$185. The campers stay in dormitories adjacent to the pool and dine in the dorm cafeteria. There will be two swimming sessions in the water per day. weight training program. flexibility exercise program, films of world-class swimmers and an individual evaluation of each camper at the end of the week in addition to recreational activities in the evening. Coach Longnecker hopes that you will be able to join him and his staff for an exciting week.

BOLLES SCHOOL SWIM CAMPS

June 9-14, June 16-21, June 23-28, June 30-July 5, July 7-12; Elite Camp: June 9-July 31

Bolles School Swim Camps 7400 San Jose Blvd. Jacksonville. FL 32217 904-733-9292; 904-733-0176

Once again The Bolles School will conduct two swim camps this summer. We will be offering five oneweek sessions. as well as our Elite Swim Camp that runs for eight weeks. The program will be run under the direction of Gregg Troy and Larry Shofe. Head and Assistant Coaches of The Bolles School and The Bolles School Sharks. Coach Troy and Coach Shofe bring a combined total of 38 years of coaching experience from novice to Olympic gold medalist. The Elite Camp is for swimmers 13 years of age and older. Training will be very intense and directed toward competition in the middle of July. For those swimmers who qualify for the Junior and Senior Nationals, arrangements will be made to be housed the remainder of the summer. The Age Group Camps are for swimmers 9-17 years of age. The typical daily schedule will include: 50 meter and 25 yard training. a stroke session, videotaping, starts and turns, as well as an activity. All instruction will take place on The Bolles School 52-acre campus, located on the St. Johns River. All campers will reside in air-conditioned dormitory rooms in Bolles Hall. All swimming will take place in our 8-lane. 25-yard pool as well as our new 50 meter pool. Write or call Gregg Troy or Larry Shofe for further information. See display ad page 63.

BRIGHAM YOUNG UNIVERSITY SWIMMING CAMP

June 24-28

BYU Conferences and Workshops 155 Harman Building Provo, UT 84602 *801-378-4851*

Share the excitement of exceptional aquatics instruction at BYU! Join head coaches Stan Crump and Tim Powers for five days of in-depth personal training and feedback. You'll receive individual computer-based interval training evaluations to determine training quidelines and exercise needs at camp and throughout the year. During classroom instruction you'll study detailed sequential movements of competitive strokes, learn specific training theories for individual goals. view contemporary training films and receive valuable feedback from personal videotapes. During pool sessions you'll experience competitive drills. workout sets. time trials and personal videotaping. During free time, you'll enjoy swimming, bowling, dances, games, movies, contests, skits and campus explorations, as well as BYU's large sports complex for racquetball. basketball and weight training. Share the excitement of a week at Brigham Young University! Camp packages include instruction. training, recreation. camp Tshirt. and either housing and meals or lunch only. Cost: housing/meals \$250. lunch only \$150. Ages 12-17. Please note: This is not a learn-to swim program: only youth with competitive swim experience are invited to attend. Contact us for information and a free brochure.

CALIFORNIA GOLDEN BEAR SWIM CAMP

June 15-20 and June 22-27

California Swim Camp Director Men's Swimming

61 Harmon Gymnasium University of California Berkeley. CA 94720 *415-642-0580*

ASCA Coach of the Year. NCAA championship team coach. Pan American. World Championships and Olympic coach Nort Thornton and two-time Olympian, winner of six gold medals, world record holder Matt Biondi will direct and participate in this uniquely structured swimming camp. Their presence, combined with a limited enrollment, an outstanding associate staff and the latest state-of-theart training equipment make the Golden Bear Swim Camp an exciting developmental opportunity for boys and girls 10-17 (no graduating high school seniors). All campers must be members of U.S. Swimming. UC Berkeley. one of the world's foremost universities and conveniently located directly across the bay from San Francisco, will provide meals and housing just one block from Harmon Gym and Spieker Aquatics Complex where training will be conducted. Features of the camp include comprehensive instruction and conditioning in all areas of competitive swimming: limited enrollment of 50 participants per session for more personal training: Matt Biondi seminars: Coach Scope subsurface video stroke. turn and start analysis: Biokinetic computerized speed circuit training: in-water video-sync detail stroke velocity analysis: other advanced training devices: classes in nutrition. mental training. sports medicine and biomechanics: planned recreational activities; and 24-hour supervision. Cost: \$500 for resident campers. \$350 for day campers. Registration with \$100 deposit will be accepted on a firstcome, first-served basis through May 1: balance of fee will be due June 1. Cancellation by June 1 will involve a \$50 administrative fee charge: after that date no refund of deposit. A seminar in conjunction with the camp offering ASCA and U.S. Swimming credit will be available to a limited number of coaches: \$300. Please apply directly to Nort Thornton.

CAROLINA SWIMMING CAMP

June 8-13 and June 15-20 Rich DeSelm Carolina Swimming Camp 914-A Kings Mill Road Chapel Hill. NC 27514 919-929-1988

Carolina Swimming Camp at the University of North Carolina in Chapel Hill. NC. Overnight and Day Camp sessions for girls and boys ages 9-17 held at the new indoor 50-meter by 25-yard Koury Natatorium (site of the 1989 U.S. Senior Nationals). Swimmers will be supervised by an outstanding coaching staff and experienced counselors. will live in air-conditioned university dorms and will eat meals at the athletic dining hall. Training sessions will offer four ability groups depending upon swimmers' ability and will include AM and PM training sessions: stroke technique instruction and videotaping: flexibility. abdominal and strength developing dryland sessions; mental training; guest lecturers, and organized fun and recreational activities. An elite training program will be available to those who qualify. Sessions are limited to 60 swimmers on a first-come, firstserved basis. Cost per session: Overnight \$350. Day Camp \$250. Discounts are available for campers enrolling in more than one session and for additional family members.

CAMP CHIKOPI

June 26-August 14 (7-week session) June 26-July 24 and July 17-August 14 (4-week sessions)

Bob and Nicky Duenkel

1 Hall of Fame Drive Fort Lauderdale, FL 33316 *305-566-8235: 305-462-6536*

Since 1920. On Ahmic Lake, Ontario, Canada. Boys 8-17. The first swim camp and truly the world's only cross-country and triathlon swim camp. Swim this summer with 1984 Olympic coach Ray Bussard. 1988 gold medalist Carolyn Waldo. 1972 Olympic diving champion Micki King and Olympian Gary Hall. Program coached by Bob Duenkel. U.S. Swimming Long Distance National Coach and FINA World Cup Coach for 1988. A swim sports camp that burns up the energy without burning out the swimmer. Competitive and non-competitive swim programs in 50meter. 25-yard and water polo bulkhead pools along with open-water swimming. We have won four USS National Long Distance Swim Championships since 1981. We also have triathlon training. Swim program includes stroke mechanics, videotaping, mental dynamics and weight training. To back up swimming. we offer 26 sports. including competitive canoeing and kayaking. running. baseball. tennis and soccer. Our staff includes world-class and Olympic coaches. Our staff to camper ratio is 1:4. Campers from more than 12 countries learn from each other and from our environment. Cabin living in the north woods plus competitive sports and cooperative activities develop self-reliance and make this the experience of a lifetime. More than 40 Olympians and 300 All-Americans have come out of our camps. Sister camp Ak-O-Mak. \$2020/7-week session. \$1400 4week session. Write or call for information and free videotape. See display ad page 56.

Illinois State Swim Camp Professional Development Illinois State University Normal, IL 61761 309-438-2160; 309-438-3633

Held on the campus of Illinois State University in Normal, III. Steve Paska and Dick Hawes, ISU head women's and assistant coach, respectively, will direct the camp with additional instruction provided by current and former swimmers. The camp is open to swimmers ages 9-17 (no high school seniors). Emphasis will be on stroke mechanics, nutrition, starts, turns, dryland conditioning and group activities. Each swimmer will have the four competitive strokes videotaped and analyzed. The swimmer keeps the videotape. Resident cost: \$230, Commuter cost: \$180. Registrations due by May 24, 1991.

ITHACA COLLEGE SWIM CAMPS

June 23-28, June 30-July 5, July 7-12, July 14-19 (stroke camp)

July 28-August 8 (training camp)

Swim Camps

Division of Continuing Education and Summer Sessions Ithaca College 953 Danby Road Ithaca, NY 14850 *607-274-3143*

Intense, yet enjoyable swim camps for male and female competitive swimmers ages 10-18. Directed by Kevin Markwardt. The camps are offered in two formats. (1) Stroke Camps: four one-week camps which enable accomplished swimmers to develop further their swimming skills and techniques with concentration on starts, turns and all four strokes. Extensive above and underwater videotaping for one-on-one stroke help and review as well as dryland workouts, sports psychology, nutrition and diet lectures. \$287 per week. (2) Training Camp: a 12-day camp emphasizing conditioning and proper training habits with high-quality workouts, addressing each of the major energy systems. Dryland workouts, lectures, stroke analysis with a strong emphasis on above and underwater videotaping. Recreational activities including trip to local state park. Enrollment limited. \$525. Six-lane, 25-yard indoor pool and outdoor pool. Live-in coaches and counselors. Full meal plan. Use of college recreational facilities, including tennis courts, gymnasium, recreation room, track and fitness trails.

JAYHAWK TRAINING CAMP

June 2-7 and June 9-14

Gary Kempf University of Kansas Swimming 221 Allen Field House Lawrence, KS 66045 913-864-4877

This technique and training camp is run by Gary Kempf, head men's and women's swimming and diving coach at the University of Kansas. Kempf has coached 11 Big-8 conference championship teams, 35 individual All-Americans, two American record holders, and was part of the coaching staff of the World Student Games in Yugoslavia and the 1985 and 1989 Olympic Sports Festival. This camp is in its second year and will be hosted by Emporia State University in Emporia, Kansas. The facility is an 8lane, 25-meter pool and has a small instructional pool available. The camp specializes in technique training in the morning; videotaping and actual workout training in the afternoon. Weight training and flexibility programs will be introduced. Classroom discussions will be held daily, covering topics such as race strategy, stroke technique, goal setting, sports psychology, nutrition, academics and current peer pressure topics. The campers will be housed in an Emporia State University dormitory, dine at the university cafeteria and will be under close 24-hour supervision by experienced and enthusiastic counselors. University of Kansas swimming staff members will assist in the camp, as will several "celebrity speakers." The cost of the camp will be \$240 for full-time campers and \$200 for day campers. Space is limited, so early enrollment is advised.

LONGHORN SWIMMING CAMP

June 2 - July 19 (seven one-week sessions)

Longhorn Swimming Camp Ann McIntosh, Director 1900 E. Campus Dr. Austin, TX 78705 512-477-1974, 512-327-5550 (evenings, message)

The coaching staff is headed by 1988 Olympic coaches Eddie Reese (NCAA team titles 1981, 1988-90) and Mark Schubert (59 USS national team titles and 1990 NCAA team title). Eddie Sinnott and Steve Collins, SMU head men's and women's coaches, respectively, will conduct two one-week sessions. Swimmers will live and dine in university dormitories adjacent to the pool and will have 24hour supervision. Facilities include an 8-lane, 50meter course and a 6-lane, 25-yard course, which will accommodate two water training sessions: one start, turn and stroke refinement session and one individual videotape analysis session. Other activities will include nutrition and weight training workshops, dryland training and recreational sports such as volleyball, water polo, softball and basketball. Applications will be accepted on a first-come, firstserved basis from all male and female competitive swimmers aged 10-17 years. Fees for resident campers are \$325 per week; day campers will pay \$250 per week.

JACK NELSON SWIM CAMP

June 16-July 27

Jack Nelson Swim Camp 503 Seabreeze Blvd. Fort Lauderdale. FL 33316 305-764-4822

We believe there are two good reasons to go to swim camp. The first is an intense period of learning about swimming technique. The second is to inspire the athlete to be a better person, and a better, more

committed team member. At the Jack Nelson Swim Camp, "Access to Success is Through the Mind." We offer three technical sessions in the water each day, featuring stroke technique and improving starts and turns. We are totally committed to the improvement of each individual. Daily contact and lectures with Jack Nelson and special guests each week. Daily schedules maximize instructional time and feature lectures, water time and supervised group activities. The International Swimming Hall of Fame is in our back yard, and we will utilize its presence to help teach swimmers about the history, tradition and future of swimming. Our pool facilities are 20 lanes of brand-new 50-meter pool. and new locker rooms and training rooms. Registration is available for one week or multiple weeks.

ROCKY MOUNTAIN TRAINING CAMP

June 2-7 and June 9-14 (stroke/training camp) June 15-20 (altitude training camp)

Rocky Mountain Stroke & Altitude Training Camps

Department of Athletics—Swimming Colorado State University Fort Collins, CO 80523 303-491-6026

Two stroke and training camps will be held for swimmers ages 9-17 (1991 graduates excluded due to NCAA regulations). Camp directors: John Mattos. head coach. Colorado State University: and Cathy Bujorian, assistant coach. The stroke and training camp is designed to assist swimmers in developing the mental and physical skills necessary to improve training and performance. Daily activities will include one dryland and water training session, one stroke technique session with underwater videotape analysis, mental training for maximizing performance, nutrition education, start/turn/race strategy improvement and limited, but organized, free time activities. Campers will be supervised on a 1:10 ratio. Cost: \$285 for residents, \$185 for commuters. In addition, one intensive Altitude Training Camp will be held for swimmers ages 12-17. Many international, club and collegiate coaches have brought their swimmers to Colorado's high country to train at altitude with the objective to improve sea level performance. Research from the Sports Medicine and Science Center in Colorado Springs indicates that controlled altitude training improves VO2max, swimming economy and lactate response curves, with proven results for endof-the-season performances. Two training sessions and one dryland session per day for 24 swimmers, including minimal stroke analysis, nutrition education and individualized mental training programs. Training can be tailored for those swimmers preparing for national meets, and complete summaries of training will be given to swimmers for their home coaches. Cost: \$500,

SAINT EDWARD'S SCHOOL

April 2-6

Steve Fenning St. Edward's Swim Camp St. Edward's Drive Vero Beach, FL 32963 407-231-7048, 800-926-5967 (travel department)

Saint Edward's School Swim Camp is located in beautiful Vero Beach, Fla., situated on a barrier reef between the Indian River and the Atlantic Ocean. Swimmers and chaperones will be housed in Days Inn Resort beachfront hotel with shuttle service to campus. The first Spring Break Swim Camp, held in April 1990, was a major success. Swimmers from New York and New Jersey attended as well as local age group and masters swimmers. Camp emphasis is on strokes and skills. This year will also include sessions in mental training headed by a nationally prominent sports psychologist. A world-class coaching staff including Steve Fenning, aquatics director, and Michelle Amen, 1980 U.S. Olympic international team, as well as Olympic trainer Rosemary Hinton will head the camp. Nationally prominent Florida guest coaches will also attend. Facilities include 8lane, 25-yard by 6-lane, 25-meter headed (83°) pool, lockers and showers, classroom with projection television, weight and training rooms including swim bench, Vasa, aerobic bicycles, full Universals, free weights and specialized weight machines. Special equipment included are Coach Scope, underwater mirrors and Super Swims. Recreation activities include a trip to Dodgertown, an Orlando attraction, beach time, water sports on campus at our waterfront dock and beach. Other features include souvenirs, take-home video, individual sessions with coaching staff, meals, speed/skill meet, take-home stroke analysis chart. Contact our Travel Department to make travel arrangements and discount rates. Delta is our official airline. See display ad page 58.

ST. LAWRENCE SWIMMING SCHOOL

June 23-28, June 30-July 5, July 7-12

St. Lawrence University Canton, NY 13617 *315-379-5232* St. Lawrence Swimming School provides participants with two in-pool training clinics each day to learn techniques and strategies from an exceptional coaching staff with national or international experience. The clinicians include several of the top collegiate Division I coaches noted for their complete development of the athlete from initial recruitment to a nationally recognized performance level. Psychological approaches to training and competition and dryland conditioning are included to create a wellrounded, highly effective learning experience. St. Lawrence Swimming School promises participants a rich and supportive learning environment that will maximize skill and knowledge acquisition. Beyond the comprehensive instructional programs, participants in the summer sports school have access to one of the most outstanding sport and recreational facilities in the country. Augsbury Physical Education Center houses gymnasiums, a swimming pool and squash courts. The adjoining Leithead Field House has an indoor running track, an artificial turf playing surface and tennis court. Playing fields and tennis courts surround the facility. Write or call for literature.

STANFORD SWIMMING CAMP

June 22-27, June 29-July 4, July 6-11, July 13-18, July 20-25 June 17-20 (half-day camp)

Stanford Swim Camp

Department of Athletics Stanford University Stanford, CA 94305-6150 *415-323-2936*

Olympic and NCAA championship team coaches Richard Quick and Skip Kenney direct this highly instructional competitive swimming camp. Their full attendance combined with over 50 years of coaching experience is focused on each camper. The camp is offered to boys and girls ages 9-17 (no graduating high school seniors). All prospective campers must be registered with U.S. Swimming. Registration forms available upon request. Stanford University, conveniently located 40 miles south of San Francisco, between the Pacific Ocean and San Francisco Bay, will be providing their top-rated facilities as well as the meals and housing. There are five six-day camps. Features of the six-day camp include (1) dryland exercises including stretching, (2) video analysis or all competitive strokes, turns and starts, (3) training sessions for conditioning aimed at promoting both good stroke and work ethics, (4) full 24-hour supervision, (5) planned extracurricular activities, (6) handouts of stretching and stroke drills, (7) lectures on nutrition, sports medicine and training physiology, (8) opportunity to purchase Swim Smarter, Swim Faster, a video that includes most of the drills learned in camp, and (9) souvenirs of their camp experience. In addition to the six-day camps, we offer a half-day camp which features analysis of one competitive stroke each day. Half-day camp is 9:30-11:30 a.m. Cost: \$450 per week resident camper, \$325 per week day camper, \$150 per week half-day camper. \$200 deposit by May 1, balance due by June 1. Free Stanford Swimming T-shirt for early applicants. See display ad page 52.

TOTAL IMMERSION ADULT INSTRUCTIONAL CAMPS

May 31-June 4 (William & Mary, VA) June 7-11 (Appalachian State, NC) June 21-25, June 28-July 2 (Colgate Univ., NY) July 11-15 (Williams College, MA) Aug. 8-12 (Wright State Univ., OH) **Terry Laughlin** Total Immersion 381 Main St. Goshen, NY 10924 516-294-3528; 914-294-3510

If you love swimming and want to become a better, smarter swimmer while enjoying a memorable vacation, then Total Immersion is for you. The Total Immersion concept is designed to give Masters, fitness swimmers and triathletes all the tools they need to design a personalized swim training program and to enjoy their swimming more. Free time is ample and campers enjoy access to all college facilities (library, tennis courts, golf course, weight room cultural offerings). Features: Four hours of instruction each day in stroke drills, stroke technique and cardiovascular conditioning; daily discussions on exercise physiology, workout design, efficient stroke technique, race strategy, nutrition, strength development, tapering for competition and video stroke analysis of each swimmer. Private room in college dorm with all bedding and linens and all-youcan-eat training table meals in modern dining hall. Each camper also receives a personal training manual with training guidelines and strategies, workout "recipes," stroke drills and a checklist of technical points to work on-a print record of your experiences and an invaluable how-to guide that you'll refer to again and again. Limited enrollment-\$450/week resident campers, \$375 day campers, \$250 non-participating spouse or guest (includes all meals, accommodations and use of all college facilities). Camp director Terry Laughlin coaches age group and Masters swimmers at Hofstra University on Long Island and is a popular clinic speaker. All TI assistant directors are certified coaches with extensive experience coaching adults. Write or call for information.

TOTAL PERFORMANCE SWIMMING CAMP

June 9-14, June 16-21

Total Performance Swimming Camp P.O. Box 410 Kenyon College Gambier, OH 43022 *614-427-4009*

Directed by Jim Steen, head coach of the Kenyon Lords and Ladies, the 11-time men's national champion and the seven-time women's national champions in NCAA Division III. In his 15 years at Kenyon his motivational techniques helped produce over 75 NCAA champions and over 250 All-Americans. The camp stresses all aspects of swimming performance amidst excellent facilities with around-theclock supervision. The daily schedule includes two water workouts, an introduction to strength and flexibility exercises, a stroke development clinic with videotaping and special lectures by leading clinicians. At the close of the camp session, each camper will take home his/her personal videotape complete with stroke corrections and suggestions. Two oneweek sessions will be offered for boys and girls ages 10-17. Come to Total Performance Swimming Camp where you learn to think and swim like a champion!

UCI SWIM CAMPS

Saturday sessions Ages 7-12: April 20 (all strokes) Ages 9-17: April 27 (free), May 4 (breast), May 11 (back), May 18 (fly) Summer session: August 17-23

Charlie Schober

UCI Swim Camps Crawford Hall University of California. Irvine Irvine. CA 92717 714-856-6936

Summer Swim Camp is held at the beautiful UC Irvine Campus in sunny Southern California. The UCI Swim Camps promote a high-quality stroke analysis and technique camp without grueling long yardage, conditioning workouts. The UCI camps are specifically designed so that each swimmer receives maximum one-on-one attention from a qualified coach or counselor on stroke analysis. technique development, starts and turns. Video analysis and instruction will be recorded from underwater and will be given to each swimmer for convenient, year-round viewing. Charlie Schober and Dan Lockhart have enjoyed coaching age group and senior swimmers for a combined total of over 30 years. Their teams have shown continuous growth and improvement under their direction. Their pleasant and patient teaching attitude creates an enjoyable learning experience for all involved in the program. Camp features include: over four hours of personal stroke instruction each day: informative lectures by top stroke analysis coaches: resident and day camp opportunities available: 24-hour per day adult supervision: camp dorms, cafeteria and rec facilities included: group discounts available: swimmers ages 9-17. Cost for Saturday sessions: 1 session. \$55: 2 sessions. \$85: 3 sessions. \$115: 4 sessions. \$145. 5 sessions, \$180. Write or call for literature.

UNIVERSITY OF SAN DIEGO COMPETITIVE SWIM CAMP

June 16-July 26

USD Gary Becker Competitive Swim Camp University of San Diego Alcala Park San Diego. CA 92110 619-260-4593

Now in our 13th year of offering an informative. fun and individual developmental swim camp. The goal of the camp is to help competitive swimmers at all levels to gain the information and stroke work needed for self improvement. The latest trends and techniques in swimming are discussed and demonstrated. Stroke correction is achieved through videotaping, review of films of world-class swimmers. dryland work. in-water skill correction and drills for reinforcement. Conditioning is maintained through motivational pool workouts. long-distance bay or ocean swims, dryland and weight workouts. Kids share the enjoyment of evening recreational activities such as beach barbecues, roller skating and movies. The camp attracts swimmers as well as coaches from across the country and around the world, enhancing the camp experience. In addition to the competitive training camp. an "all new" racing camp will be offered this summer to qualified swimmers. Stroke refinement, race pacing and racing strategy are highlighted. One- and two-week sessions are available. Emphasis in the second week of two-week camp is on race strategy and conditioning. One-week campers have the option of selecting the "Racing Camp" format during designated weeks. On-campus living is in clean, supervised dorms. Balanced meals are served in the university cafeteria, and all USD recreational facilities are available to the campers. Our 12-lane, 25-yard pool is excellent for instruction and training. One-week resident cost is \$340, \$245 for commuters. USD prides itself in offering safe, fun and informative camps. See display ad page 51.

USC TROJAN SWIM CAMP

June 16-July 5

CAMP WEKEELA FOR BOYS AND GIRLS

June 24-August 18 (four or eight weeks only)

Eric and Lauren Scoblionko

Camp Wekeela for Boys and Girls 130 S. Merkle Road Columbus. OH 43209 614-235-3177. 614-235-3619 (fax)

Route 219 in Canton, Maine, Rapidly gaining a reputation as one of the finest summer camps for boys and girls 6-16. Camp Wekeela is more than a complete experience, encompassing 65 activities plus frequent regional and Canadian trips. Wekeela offers a comprehensive competitive swimming program. endorsed by award-winning Mercersburg Academy and enhanced with a visiting coach program staffed by University of Tennessee Head Coach John Trembley, the University of Pennsylvania's Head Coach Kathy Lawlor and C. Rob Orr. Head Coach at Princeton University. Wekeela's facilities include a 1500-foot white sandy beach bordering pristine Bear Pond. The waterfront includes a massive floating dock with fourteen 25-yard swim lanes. state-of-the-art timers. daily workouts and frequent intercamp competitions with neighboring camps. Other offerings include SCUBA. waterskiing. sailing. windsurfing. canoeing. white water rafting and water polo. An outstanding tennis program with USTA instruction complements Wekeela's wellrounded electives. A gymnasium with indoor and outdoor basketball courts. soccer fields, softball. gymnastics, European team handball, lacrosse fields. field hockey and golf are available as well. A complete performing and creative arts staff makes a variety of pursuits possible. Trips to Cape Cod. Maine's rivers and beaches. New Hampshire's White Mountains and Quebec City round out the program for one of America's most innovative and unique camps. Campers may come for four or eight weeks only. The all-inclusive fee for four weeks is \$2700 and for eight weeks \$4500.See display ad page 57.

WISCONSIN/MINNESOTA SWIM CAMPS

Camp start dates: June 9, 16, 23; July 7, 21; August 4, 11

Wisconsin/Minnesota Sports Camps, Inc.

468 Lac La Belle Drive Oconomowoc. WI 53066 *800-558-0428*

Our 15th year of running competitive swim camps for boys and girls ages 7-18. Emphasis is totally on stroke mechanics, starts, turns and relay exchanges. Videotaping, individual instruction, stroke lectures. films, flexibility and strength training will be done. In addition, pace and interval training will be introduced. All campers will be individually videotaped and evaluated by his/her coach each day and given the tape at the end of the week. A Stroke Analysis Booklet will be given to each camper with his her coach's personal evaluation. This booklet will also contain information on strokes. diet. weight training. flexibility and stroke drills. Campers receive 24-hour supervision by the entire staff. Our camper to staff ratio is 10:1. We have a staff of 30 coaches and a dozen counselors working at our ten different camps. Canoeing, biking and a Thursday evening minimarathon are featured at our Green Lake camps. Cost varies from \$210 to \$335 per camper. Special group rates are available through April 30

WOLVERINE SWIM CAMP

June 9-14, June 16-21, July 7-12, July 14-19

Wolverine Swim Camps

8160 Valley View Dr. Ypsilanti. MI 48197 *313-484-4779*

Swimmers ages 9-17 who want to learn the secrets behind the highly successful University of Michigan technique and training programs are invited to apply for admission. The wave breaststroke. the T-30. lactate predictor sets. threshold and super-threshold training sets are a few of the state-of-the-art concepts each swimmer will be exposed to. Four sessions are limited to 150 campers per session. A staff of 25, and three instructional sessions per day. insures the individual attention necessary for significant performance and technique improvements. Head Coaches Jon Urbanchek and Jim Richardson are on deck and are directly involved in the coaching and training of all campers at every session. Each camper is filmed daily and strokes, starts and turns are analyzed using the new Sony Caddy Cam highspeed video analysis system. An intensive training option is available for those who qualify. Swimmers will receive a computer analysis of prescribed training velocities. A comprehensive technique development tract is available for the swimmer in need of skill acquisition. Our world class staff is dedicated to providing the kind of leadership and companionship which is designed to encourage each swimmer to strive for the "higher things" both in and out of the pool. Cost: \$300 week, includes instruction, swim cap. T-shirt. group color photo. videotape. instructional printed material. and room and board: \$200 week day camper fee includes all of the above less room and board. See display ad page 53.

50 MEMORY STOPWATCH under \$50

Press a button, take a dual split. Press a button, recall the last 50 split-lap timeseven during the event. Look at the display and always see the current running time on the bottom display. Total Recall that's SIMPLE to use. The 275 also has an instantly presettable countdown timer for your sport. Now that's versatility

Sportline's newest professional stopwatch. the 275 MultiMemory, is built for your hand. The uniquely designed triple display watertight unit will fit you like a glove and it's ready to time any sport: track, swimming, soccer, football, etc.

The 275 MultiMemory Stopwatch may be the last stopwatch you will ever need. And it's priced below \$50. Call your local sporting goods dealer and wrap your hand around the 275 Memory Stopwatch. You won't let go. If he doesn't have one. call us Toll-Free 1-800-338-6337 for a free color catalog and we'll make sure you get the name of a dealer who carries one.

C A L E N D A R

The first medically designed sunglasses by eye surgeon and 3-time Olympian, Dr. Gary Hall, for maximum sun protection. The unique UltraGuard[™] lens is scientifically formulated to block all the harmful direct sunlight and the highly reflected sunlight from water surfaces. Lightweight with adjustable temple, these are the safest and most comfortable sunglasses you'll ever own!

"Since I have begun wearing your product, I cannot be comfortable in anything else." -John Naber, 1976 Olympic swimmer. Please send Calendar of Event listings to: Calendar of Events, Swimming World, 116 W. Hazel St., Inglewood, CA 90302. Include the name of the meet, dates it will be held, and a contact name, address, and phone number. All submissions should reach our office *at least* four months prior to the date of the meet.

SWIMMER'S UPPER ARM STRAP

The Cho-Pat Swimmer's Arm Strap helps prevent the pulling and tearing of tendon fibers experienced by the high percentage of competitive swimmers who develop bicipital/tricipital tendonitis. Stay active—wear our strap while engaged in swimming and water sports' activities. Coaches...don't wait until your swimmers develop this problem and waste your/their efforts. To order, call 1-800-221-1601 or write: P.O. Box 293, Hainesport, NJ 08036. In N.J., call 609-261-1336 M-F 9AM-5PM EST. (Have above bicep circumference measurement before ordering.)

The New Kiefer 31" Pace Clock

The revolutionary round design and large numerals make the Kiefer pace clock extremely visible from any distance. Available in both battery & electric, wall mount or floor mount. Ideal for workouts, lap swimming and water polo. Blue or Yellow.

DEALER INQUIRIES INVITED

We Are Counting On You To Care. Give Blood.

AMERICAN ASSOCIATION OF BLOOD BANKS

EXPERIENCE COUNTS-

During the 1972 Olympics while watching Mark Spitz do the unbelievable we were inspired to create a racing swim suit company that would also attain new heights.

By August 1976 we created The Finals. We set up the designs, the styles, the prices, the concept and the catalog. We ran the advertising, the purchasing, the production scheduling, order full fillment, the order department out of our own home for the first six years.

In December 1984, when annual suit sales reached 600,000 suits, we left our partners with what we had created.

In April 1985 we began again from scratch to bring you the ultimate victor "The Victor." The 1991 Victor is well on its way back where we left off—helping you save time and money and supporting the programs that mean so much to swimming.

WHAT WE DO

We are dedicated to bringing the Swim Community the highest quality suits and supplies with the very best service and absolute best prices.

We manufacture The Victor High Performance Lycra Racing Wear. They are hand crafted of the same expensive material, that Speedo and Arena use, a special Dupont 128 yarn.

We even use an expensive elastic in our straps, while they use rubber; rubber cracks, rubber is cheap. Elastic won't crack, it will out last rubber, has excellent memory retention, elastic is expensive. We sew them more carefully, intent on offering you the best made and most expensive racing suits, for about one half the retail prices everyone else charges.

HOW WE DO IT

- BIG SAVINGS for you and your team are achieved by selling direct to you.
- We do not sell stores. We have cut out the middleman and have virtually cut prices in half.
- IF YOU PAID MORE THAN: \$15.95-Female Lycra, \$9.95-Male Lycra Suits YOU PAID TOO MUCH !!!

CALL TOLL FREE 1-800-356-5132 AND CHARGE IT

Our Reputation: Quality-Highest, Service-Fastest, Price-Lowest

WE GUARANTEE IT 100% "No Shipping Charges" Offer Expires March 31, 1991

The 1,000,000 Yard Guarantee

If you are a serious swimmer or triathlete you know how critical drawcord function is to optimum performance. At TYR Sport we are so confident that our new drawcords will stay tied and will not slip, that we are guaranteeing them against slippage and breakage for 1,000,000 yards. Now you can avoid any surprises during crucial starts and turns and swim with the assurance that your suit won't literally let you down. Look for details about the 1,000,000 yard drawcord guarantee on specially marked TYR racing suits in better sporting goods and swim specialty shops.

To receive 1990 catalog send \$3.00 to **TYR SPORT INC.** PO Box 1007 United to Box 1007

WHERE THERE'S WATER THERE'S: ANTRON/LYCRA

DU PONT REGISTERED TRADEMARKS
IVIT IS A REGISTERED TRADEMARK OF TVIT SPORT INC. USA

In Perth, the winners of 22 Gold Medals were wearing Speedo swimwear. That's no mere coincidence.

The fact is when you're going for the gold, you need as much going for you as you can get. And no other swimwear gives you a competitive edge like Speedo, the stuff that great swimmers are made of.

Exclusive supplier of deck apparel to the U.S. National Swim Teams (1985-92). Supplier to U.S. Diving and U.S. Synchronized Swimming. Speedo* America, Van Nuys, CA. Call 1-800-547-8770. Speedo* is a registered trademark and used under license from the Speedo International Group of Companies
